Sharing made fast and easy

With S Beam, you only have to place two devices back to back and tap to share links and files. You can also share photos, videos and documents directly with other S Beam capable handsets.

With S Voice you can control your phone with voice commands. With Bluetooth 4.0 you can share with your other devices without draining your battery. And AllShare Play lets you share photos and videos directly to any DLNA PC and TV. It's the perfect phone for sharing anywhere, anytime, with a network connection or without.

A stunning view wherever you go

With the large 4" Super AMOLED touchscreen you will experience deep, rich colors and clear text, indoors and in direct sunlight. The large display gives a wider viewing angle, so movies will be more enthralling, Web sites will jump off the page and games will seem more exciting. And there's a front- and rear-facing camera to make sure you always get the right view when capturing your own entertainment.

Strong

Thanks to a long list of enterprise security-capable features, you can now work safely out of the office. Mobile Development Management allows IT managers to remotely deploy apps and provide extra security with remote locking and wiping. On-device encryption safeguards sensitive data. Securely connect to remote corporate networks with VPN. And have access to corporate email and calendar contacts through Exchange ActiveSync.

We already packed your apps

You'll find some very cool pre-loaded apps such as Kies Air, a browser-based file sharing and management system. Facebook and Google+. Qik Lite for video calls, video mail, and record and share on Facebook, Twitter and more. AT&T's Navigator, FamilyMap, Locker, Code Scanner and myAT&T. Kindle for Android. And feel free to customize your home screen thanks to Android 4.0, Ice Cream Sandwich and Touchwiz, and add more to your phone with expandable memory up to 32GB.

This is a great phone! I took it out of my pocket, called my buddy, put him on speakerphone then to show off to the folks in the room, put the phone in a tall glass of ice water. Everyone was amazed when I pulled it out and it kept going without skipping a beat! Phone sold itself!

Samsung Did It Again!

RuggedN13

10 years ago

Finally, a ruggedized smart phone:-) I recently upgraded from a Samsung Rugby flip phone to a Samsung Rugby Pro Smartphone. I am very hard on cell phones and had to wait to upgrade until a smartphone that was rugged to be developed. Samsung did it again, very happy and loyal customer for life!

Great Rugged Phone

midwestmedic

Why buy a phone and then immediately need a rugged case for work? This phone is rugged from the start and still has all the good smartphone stuff. It's also not too big but still not too small.

☒ Yes, I recommend this product.

I've been very happy with this phone for the last four months, until earlier today when it slipped out of my hand as I got out of my car and the screen shattered when it hit the pavement. Wasn't more than a 2ft drop, but the screen glass broke just
