CAUTION: This email has originated from a source outside of USPTO. PLEASE CONSIDER THE SOURCE before responding, clicking on links, or opening attachments.

Dear Board,

Petitioner Google LLC requests leave to file a reply to the Patent Owner's preliminary responses (POPRs) filed in each of the above IPR proceedings.

All of the POPRs discuss the District Court's Order and Patent Owner's appeal to the Federal Circuit as basis for discretionary denial. Patent Owner has submitted the District Court's Order and Patent Owner's Appeal Brief as exhibits (Exhibits 2003, 2012). Petitioner seeks leave to address Patent Owner's arguments which rely on these intervening events. Good cause exists because the District Court's Order and Patent Owner's appeal were events that occurred after

the filing of the petitions. *See, e.g., Vector Flow*, IPR2023-00353, Paper 11; *Valtrus*, IPR2022-01197, Paper 12. Good cause also exists given that the specific manner in which Patent Owner relies on such intervening events in support of discretionary denial was not reasonably foreseeable.

The Reply will be limited to addressing discretionary denial under Section 314(a) and the impact of the District Court's Order and Patent Owner's appeal to the Federal Circuit on discretionary denial. Petitioner requests five pages. Petitioner agrees to a Patent Owner sur-reply with like-page limits and timings given to Petitioner.

Petitioner met and conferred with Patent Owner. Patent Owner has indicated that it opposes Petitioner's request. See attached email dated December 20, 2023 from Patent Owner's counsel.

Petitioner can be available for a conference call should the Board desire one.

Thank you.
