CLAMPS Accessories

Hosecraft USA clamps used for hoses/fittings are shown in some detail below, and can be purchased online.

The clamps and fittings are also used as parts of finished hose assemblies that can be configured and purchased elsewhere on this site, through our Price & Purchase configurator feature.

WORM GEAR CLAMP - Stainless steel bands and hosing with plated and chromate dip screw.

[Details >](#)

T-BOLT CLAMP - T-bolt clamps are applied with a standard 7/16" socket wrench. 3/4" wide.

[Details >](#)

BAND CLAMP - Clamps are high carbon coated steel or stainless steel, and apply with band clamp tool. 7/8" to 7" ODs.

[Details >](#)

BAND CLAMP TOOL - Lightweight and allows for side entry with band clamps.

[Details >](#)

DOUBLE BOLT CLAMP - A rugged, iron clamp with dual gripping ridges. 3-1/2" to 13" outer diameters.

[Details >](#)

BRASS FERRULE - Applied with a crimp-on tool.

[Details >](#)

SPRIAL BOLT CLAMP - Used on hoses with a convoluted cover. 2" to 12" diameters.

[Details >](#)

CRIMP ON TOOL - Crimping tool to apply ferrules to hoses.

[Details >](#)

BRIDGE CLAMP - These apply a tight seal by providing a step over the raised helix of duct hoses.

[Details >](#)

LAP EXHAUST CLAMP - Connect interlock metal hoses to exhaust and other systems.
