WELCOME

When you have a serious project that needs to be done, look no further than SRM Industries Inc., America's leader in industrial craftsmanship. We innovate. We deliver.

In the last three-quarters of a century a lot has changed – technology, governments, world economies, the materials we use in our daily lives. But one thing remains unchanged – our dedication to doing the best work in the world. We keep an old fashioned attitude about work, and that's that it needs to be done when we promised. More and more, that means relying on brilliant engineers and hardworking craftsmen working in tandem.

The Ruffle emulator does not yet support ActionScript 3, required by this content.

If you choose to run it anyway, interactivity will be missing or limited.

NEW
POWERFUL
TECHNOLOGIES

LEADERSHIP

There are leaders and the followers everyone else. At SRM Industries Inc., we take immense pride in driving the industry standards forward, focusing on efficiency, quality, and safety.

No one ever complained about hiring the best.

QUALITY

Our reputation is built on high quality. In a business of service, making our entire industry forward, SRM Industries Inc. has become synonymous with the highest quality hose protection products.

No one ever complained about having their work executed perfectly.

TECHNOLOGY

When you're dealing with a million moving pieces, your tools can be the difference between moving forward and getting your wheels stuck. At SRM Industries Inc., we're continually finding the best new technology.

No one ever complained it was too easy.

RELIABILITY

It's old fashioned now, but we do what we say we're going to do. Plain and simple. Our word is bond, and that applies to our deadlines, as well.

No one ever complained that we had too much integrity.
