

Request for S-Grade Matters

Please draw up a Specification after carrying out interviews with the following three persons.

- Interviews with 3 Persons (inventor, person responsible for engineering, legal representative)

Matters Requested

Please draw up a primary draft of the Specification within the possible parameters based on the draft of the Explanation of Invention and the Like as well as the Well-Known Materials and the Like not later than 10 days after the order date. Upload it to UNIPAT and notify the responsible persons in charge of engineering as well as the inventor by e-mail before the interviews take place. Please indicate specifically at least the following in the draft of the Specification and the Like so that the interviews can proceed smoothly.

1. Supplementary Matters Requested (drawings, supplementary explanations, reference documents and the like).
2. Items in Questions
3. Other Required Matters

The person responsible for engineering in this department will determine the time and the venue and the like after obtaining the primary draft of the Specification. After the primary draft of the Specification has been obtained, please complete the Specification so that it can be filed as soon as possible after the interviews and take care to see that it can be filed.

□ Other Required Matters

Your help in the past is always appreciated.

- o An interview regarding this matter will be held at the Tamagawa Business Office (11/10; Monday).
- o We shall contact you regarding the time and the venue for this interview under separate cover.
- o Please confirm the memo regarding contact about creation of the Specification for other matters.

Request

1. Once creation of the Specification has been completed, please upload the completed Specification to UNIPAT and notify the responsible engineers in this department as well as the inventors by email about this before the interview take place and file the application after the contents have been approved.
2. In addition, please send the required evaluation data regarding the number of drawings, the claims and the like in the indicated format to the engineers in charge in this department.
