Subject: Re: DEMO/PRODUCTS
Importance: High

Sammy,
Attached please find a digital copy of our short brochure on the ARES system.

Also please visit our website, MIT.Technology for more information on the ARES, including our latest video, which you can access by clicking on the large ARES helmet logo on the HOME page.

Will you be in Paris at the Milipol Show in two weeks? If so, that might be a great time to meet so we can show you the ARES. If you will not be there, then we can discuss on the phone whenever convenient.

Best regards,
Tim
