AH

Counsel for Petitioner,

I write in regard to above IPR petitions that you have filed with the PTAB. Both of these petitions involve U.S. Patent No. 9,271,184. The -01361 Petition challenges claims 1-6 and 10-20 of that patent, while the -01362 Petition challenges claims 1 and 7-9. As you may be aware, Patent Owner is no longer asserting claims 7-9 in the co-pending litigation.

The only overlapping claim in these Petitions is claim 1, "for which [according to Petitioner] identical grounds are presented in each petition to establish the necessary foundation for challenging the dependent claims in the respective petitions." Petitioner's Notice Ranking Petitions at 2-3. Thus, the only separate challenges in the -01362 Petition are for claims 7-9, which are no longer asserted against Petitioner.

Given the above, will Petitioner withdraw the -01362 Petition?

Best regards,
Amy
