See Exhibits 1 and 2 for each party's respective proposed constructions of the disputed terms together with an identification of all references from the specification or prosecution history that support that construction, and an identification of any extrinsic evidence known to the party on which it intends to rely either to support its proposed construction of the claim or to oppose any other party's proposed construction of the claim.

(3) The parties anticipate that the length of time necessary for the Claim Construction Hearing will be approximately three hours.

(4) Neither Hisense nor Brightplus proposes to call any live witnesses at the Claim Construction Hearing. Hisense may rely on a written declaration of an expert in support of its positions and the parties have agreed to a process for disclosing said opinions and a deposition of the expert during the claim
