Public Comments/Notices

As Commission decisions generally have broad public impact, orders often include a provision for notifying the public and inviting comments on a particular issue. The cases listed below include such a provision.

To submit your comments electronically, please select the button that appears immediately below the description of the case in which you are interested. When you have completed the form, submit the information for inclusion in the case file. All submitted comments will be printed and retained by the Document Control Center of the Office of the Clerk of the Commission. A copy of the information you submit will also be provided to the applicant.

Electronic submissions in this forum are restricted. Legal filings from applicants, defendants, petitioners, and respondents must be delivered, with the requisite number of copies and format, in the manner prescribed in the Commission's Rules of Practice and Procedure. These parties may opt to take advantage of Electronic Document Filing with the Commission.

For additional information on these and other cases before the Commission, you may wish to access DocketSearch.

NOTE: Your personal information and comments are made part of the case file and are accessible to the public through the SCC's DocketSearch feature. You may wish to review our [Privacy Policy](#) before submitting information electronically to the SCC.

PUE-2013-00132 -

Application of Shenandoah Valley Electric Cooperative for approval of a general increase in base rates and a plan to migrate transitioning customers to its modified legacy rates, and for approval of revisions to rate schedules for electric service
