

The Dexcom G7. The most accurate CGM system.¹

Manage diabetes confidently with the powerfully simple Dexcom G7.

Get started

An easier way to manage diabetes without fingersticks[†]

Dexcom G7, the simple CGM system, delivers real-time glucose numbers to your smartphone^{*} or smart watch[†]—no fingersticks required.[†] Effortlessly see your glucose levels and where they're headed, so you can make smarter decisions about food and activity in the moment to take better control of your diabetes.

[†]Fingersticks required for diabetes treatment decisions if symptoms or expectations do not match readings.

Smart device sold separately.*

Made for all types of diabetes

Dexcom G7 can be used to manage type 1, type 2, and for people with diabetes during pregnancy.

The most accurate CGM system¹

Make confident decisions with the most accurate CGM system¹ and see how that can lead to better results.

Smart device sold separately.*

Proven results you can see

Dexcom G7 can help you spend more time in range, which is proven to lower A1C.²⁻⁶ The more time you spend in range, the better and healthier you feel.⁷ We even offer the Dexcom Clarity app, which tracks your glucose trends and provides a projected A1C in as little as two weeks.⁸

Our most comfortable and discreet sensor yet^{7,11,12}

The new, discreet sensor is 60% smaller than its predecessor. Its small size and upper-arm wear location make it easy to forget that you're even wearing it.⁷

#1 Covered CGM brand¹

Dexcom CGM is widely covered and most patients pay \$20 or less per month.^{1,\$\$} Dexcom G7 is easy to get no matter your CGM coverage.

Lightning fast 30-minute warmup

Dexcom G7 warms up twice as fast as any other CGM system,¹¹ so you'll have more time with your numbers. It also has a new 12-hour grace period, so you can swap your sensor when convenient for you.

Closer to your circle of support

Dexcom G7 allows your support system to be there for you, even when apart. Here are the ways you can reduce worry and achieve greater peace of mind.

Dexcom Follow app

Share your glucose numbers with up to 10 Followers for an added layer of support.[¶]

FAQs

What is the Dexcom G7 CGM System?

Dexcom G7 offers a better way to help people gain greater control of their diabetes, so they can more confidently manage it each day. Its low-profile, all-in-one wearable sensor warms up faster than any other CGM on the market,^{||} sending real-time glucose readings automatically to a compatible smart device or Dexcom receiver, no fingersticks[†] required. Dexcom G7 also offers a suite of customizable alerts that can warn of high or low glucose levels and help you spend more time in range.²⁻⁶ Industry-leading remote monitoring and reporting capabilities also allow users to stay connected with their loved ones and care teams anytime, anywhere.^{||}

†Fingersticks required for diabetes treatment decisions if symptoms or expectations do not match readings.

BRIEF SAFETY STATEMENT: Failure to use the Dexcom Continuous Glucose Monitoring System and its components according to the instructions for use provided with your device and available at <https://www.dexcom.com/safety-information> and to properly consider all indications, contraindications, warnings, precautions, and cautions in those instructions for use may result in you missing a severe hypoglycemia (low blood glucose) or hyperglycemia (high blood glucose) occurrence and/or making a treatment decision that may result in injury. If your glucose alerts and readings from the Dexcom CGM do not match symptoms, use a blood glucose meter to make diabetes treatment decisions. Seek medical advice and attention when appropriate, including for any medical emergency
