New York, NY (PRWEB) April 22, 2016 -- The Edison Awards, celebrated 29 years of honoring the best in innovation and excellence in the development of new products and services, by recognizing the Gold, Silver, and Bronze award winning teams at the April 21st event in New York City.

Being recognized with an Edison Award is the highest accolade a company can receive in the name of innovation and business success. The awards are named after Thomas Alva Edison (1847-1931) whose inventions, new product development methods and innovative achievements literally changed the world, garnered him 1,093 U.S. patents, and made him a household name around the world.

"Fostering innovation is essential to keep moving forward. The 2016 Edison Award winners are recognized for the remarkable value they bring to consumers," said Frank Bonafilia, Executive Director, Edison Awards. "This year's winners will change the way we live, work and play."

About the Edison Awards™

The Edison Awards is a program conducted by Edison Universe, a non-profit, 501(c)(3) organization dedicated to recognizing, honoring and fostering innovation. They honor game-changing innovations that are at the forefront of new product and service development, marketing and human-centered design, and are one of the highest accolades a company can receive in the name of successful innovation.
