

## Blossom User Interface

Blossom allows users to access a wide range of Internet resources from the perspective of participating [Tor](#) exit nodes, including nodes on the Tor overlay network as well as nodes on the independently-constructed Blossom overlay network, which supports arbitrary underlying network topologies. For detailed information about the current state of the Tor network, consult the [Tor Exit Node Status](#) page.

**Step-1** Configure your browser to use the HTTP proxy running on [cassandra.eecs.harvard.edu:8119](#). If you do not know how to do this, then please either [determine how to change your browser proxy settings](#) or [implicitly use our proxy instead](#).

**Step-2** Provide a URL to access via Blossom.

URL:

**Step-3a** To view the web resource using a Blossom proxy, please choose the following option:

Select a Blossom Node

- OR -

**Step-3b** To select a node by country from either the Tor network or the Blossom network, click the corresponding flag:

|                                                                                   |                         |    |
