

David M. Auslander
Professor of the Graduate School, Mechanical Engineering
University of California at Berkeley

Mechanical Engineering Department, University of California, Berkeley, CA 94720-1740, USA
510-642-4930, dma@me.berkeley.edu,

Employment

University of California at Berkeley, Associate Dean for Student Affairs and Research, College of Engineering, 1999 – 2005, Acting Dean, College of Engineering, 2002-03
University of California at Berkeley, Professor of the Graduate School: joined faculty in 1966 - present
Northern Research and Development Corp., Cambridge, MA: Senior Engineer, 1961-64

Education

BSME	The Cooper Union, 1961
SM	Massachusetts Institute of Technology, 1964
ScD	Massachusetts Institute of Technology, 1966

Areas of Research

Control system design and analysis, real time software methodology, mechatronics (mechanical system control), motion control, energy management systems, dynamic system modeling and simulation

Visiting Positions

University of Tokyo, Center for Advanced Studies of the National Polytechnic Institute (Mexico), Princeton University, University of Sydney, École Nationale Supérieure des Arts et Métier (Paris), École Polytechnique Federale de Lausanne

Teaching

Taught classes in mechatronics, real time software, feedback control systems; Developed mechatronics sequence (undergraduate and graduate courses in real time software, digital and analog electronics, mechanical system control); Co-Developed new introductory feedback control course; Developed measurement and instrumentation course; Authored and co-authored textbooks in these areas; Developed robotics-mechatronics course at Univ. of Calif., Merced. Not currently teaching.

Professional Activities

International Federation of Automatic Control (IFAC) 1996 Triennial Congress, Conf. Mgr.
ASME Dynamics Systems and Control Division, chair 1981, member of various committees
ASME Transactions, J. Dynamic Systems, Measurement and Control, Editor 1981-86

Consulting: legal consulting; co-founder and Senior Consultant of Berkeley Process Control, Inc., a developer of controllers for mechanical systems. Berkeley Process Control was acquired by Moog, Inc., in 2008; member, Board of Directors and consultant, XIO, Inc(2014-2021).

Honors

Louis Levy Award (best paper), Franklin Institute (twice)
Fellow of the American Society of Mechanical Engineers
Education Award, Dynamic Systems and Control Division, ASME
Education Award, American Automatic Control Council
Control Practice Award, Dynamic Systems and Control Division, ASME
Donald P.Eckman Award of the Instrumentation, Systems, and Automation Society (ISA)
Mechatronics and Embedded Systems and Applications (MESA), ASME/IEEE, Career Award

PUBLICATIONS

David M. Auslander
Mechanical Engineering Department
University of California at Berkeley

Books and Book Chapters

1. Y. Takahashi, M. Rabins, D. M. Auslander, *Control and Dynamic Systems*, Addison-Wesley Publishing Company, 800 pages, 1970. (Also translated into Japanese and Polish.)
2. D. M. Auslander, Y. Takahashi, M. Rabins, *Introducing Systems and Control*, McGraw-Hill, New York, 388 pages, 1974. (Also translated into Spanish.)
3. A. Al-Shaikh, D. M. Auslander, editors, *Case Studies in Computer Control*, ASME, 1978, 87 pages.
4. D. M. Auslander, P. Sagues, *Microprocessors for Measurement and Control*, Osborne/McGraw-Hill, 1981, 310 pages. (Also translated into Japanese and Chinese.)
5. I.D. Landau, M. Tomizuka, D. M. Auslander, editors, *Adaptive Systems in Control and Signal Processing 1983*, Pergamon Press, Oxford, 1984.
6. D.M. Auslander, C.H. Tham, *Real-Time Software for Control*, Prentice-Hall, Englewood Cliffs, NJ, 1990, 493 pages.
