MOBILE, FLOATING AGITATION

Powerful, vertical mixing action blasts top-water straight down at settled solids to thoroughly agitate through the profile. Cornell's high-efficiency cutter pump moves 4,000 GPM. You control the direction of flow through a single outflow or multiple outflows to manage the toughest build-up or crust conditions with the least fuel cost.

REMOTE CONTROLLED

Easy to Operate

CORNELL® CUTTER PUMP

Energy-Efficient

- Regain storage capacity
- Easily manage settled solids
- Create a high-value nutrient
- Utilize very little fuel to do so

THREE SUB-SURFACE VERTICAL OUTFLOWS

Quick, responsive nozzle control steers the boat during agitation. Independent gate valves direct flow through a single nozzle or multiple nozzles to manage tough build-up and various lagoon depths.

HINGED FLOATATION

Easy Transport on a car trailer

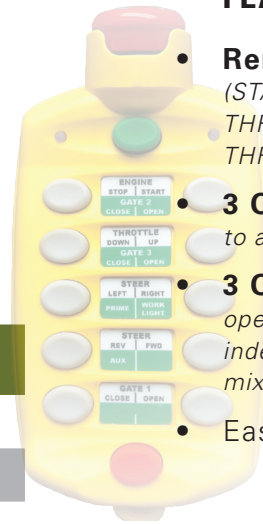

**Exhibit
DX 63**

HINGED FLOTATION

Flotation devices hydraulically fold to conveniently transport on a legal width trailer. A tilt-bed trailer with winch is included for easy towing behind a 3/4 ton pickup or larger.

FEATURES

- **Remote Controlled** (START/STOP, STEERING, THROTTLE, OPEN/CLOSE THREE GATES)
- **3 Outflow Nozzles**—to agitate and steer.
- **3 Outflow Gates**—open and close gates independently for better mixing and maneuvering
- Easy Set-Up & Clean-Up

- 10 inch Intake
- Lightweight
- **VERY FUEL EFFICIENT**—3-10 gal/hr. consumption

OPTIONS:

- Lead Pump Compatible (4096, 3067, 2067 Models)
- Krohne® Flow Meter
- MobileStar™ Control

PCE Models	Cornell®	Flow Capacity	John Deere®
BOAT 4010*	10NNT	7,500 gpm	9.0L 375hp
BOAT 4069	6NHTB-19	3,500 gpm	9.0L 375 hp
BOAT 3067*	6NHTB-17	4,000 gpm	9.0L 300 hp
BOAT 2067*	6NHTB-17	4,000 gpm	6.8L 275 hp
BOAT 1067*	6NHTB-17	3,750 gpm	6.8L 185 hp

*Cutter Pump Option

CORNELL® CUTTER PUMP

Knife-like chopping action chops and chews during agitation for less plugging & better results.

SUPERIOR AGITATION, SUPERIOR EFFICIENCY, UNMATCHED CLEAN-OUT ABILITY.
