Patent Owner Greenthread, LLC (“Patent Owner” or “PO”) submits this reply in support of its motion to seal (“Motion” or “Mot.,” Paper 9), which requested sealing certain documents because they contain confidential licensing-related information. Petitioner states that it was not given sufficient time to provide a position regarding the Motion, but Patent Owner requested Petitioner’s response on the same day that the Board granted PO’s request to file a motion for additional discovery on December 21, 2023. PO needed to file its motion for additional discovery as expeditiously as possible to maximize the potential of such discovery being included in its POPRs. PO filed its motion for additional discovery (Paper 10) and the motion to seal the following day, on December 22, 2023.

Petitioner filed its Opposition (“Opp.,” Paper 11) on January 5, identifying that it does not oppose entry of the Board’s Default Protective Order, nor does it oppose sealing Exhibits 2022, 2032, and 2034 in their entireties. Opp. 2. Petitioner opposes sealing PO’s Motion for Additional Discovery, and Exhibits 2011, 2016, and 2028 in their entireties, and suggests preparing redacted versions of the those in the alternative. Opp. 2-3.

As Petitioner does not oppose entry of the Default Protective Order and sealing Exhibits 2022, 2032, and 2034 in their entireties, Patent Owner requests the Default Protective Order be entered and Exhibits 2022, 2032, and 2034 be sealed in their entireties. As explained in its Motion, good cause exists to keep those exhibits

under seal. Mot. 3-5.

Petitioner opposes Exhibit 2028 from being sealed in its entirety, but provides no argument as to why and does not separately address Exhibit 2028 in its Opposition. See Opp. 1-3. Unlike Exhibits 2011 and 2016, which include email correspondence between the parties, Exhibit 2028 is a confidential declaration that discusses Exhibit 2022 (which Petitioner does not oppose sealing) and includes highly sensitive, confidential, and non-public information, including certain terms, rights, and scope of Exhibit 2022. Public disclosure of this information would harm Patent Owner and certain other third parties. Essentially, all of the information in Exhibit 2028 is truly sensitive, which warrants sealing it in its entirety. *Edwards Lifesciences Corp. v. Boston Scientific Scimed, Inc.*, IPR2017-00060, Paper 24 at 7 (FN3) (PTAB July 20, 2017).

Patent Owner does not object to filing unsealed but redacted copies of its Motion for Additional Discovery, Exhibit 2011, and Exhibit 2016.
