Counsel,

A Final Written Decision in the above-referenced proceeding issued on August 13, 2025. Paper 47. Petitioner filed a Notice of Appeal (Paper 48) from the Final Written Decision on September 10, 2025, *before* Patent Owner filed its Request for Director Review (Paper 49). In view of the Notice to Appeal, the Office lacks jurisdiction to decide Patent Owner's Request for Director Review, and the Request is dismissed for lack of jurisdiction. *See In re Graves*, 69 F.3d 1147, 1149–1150 (Fed. Cir. 1995).

Thank you.

Subject: IPR2024-00101 Director Review Request

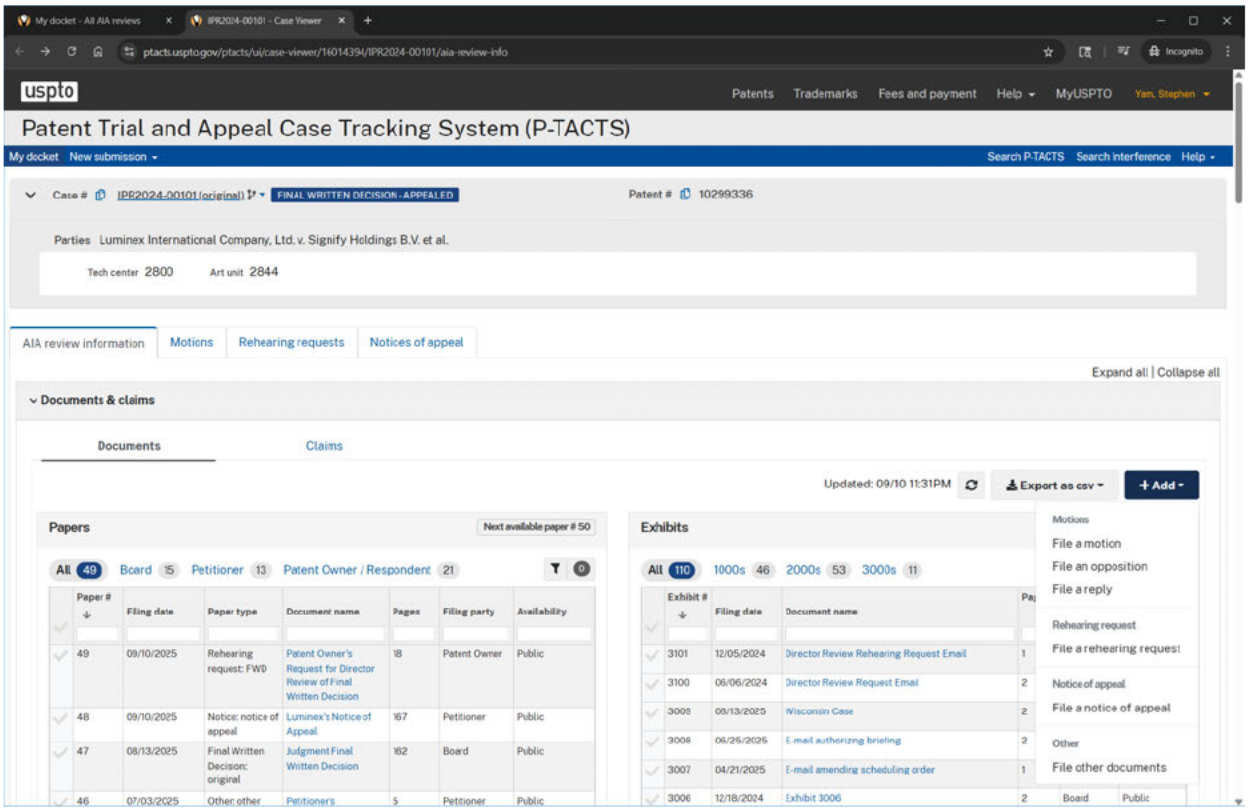

CAUTION: This email has originated from a source outside of USPTO. **PLEASE CONSIDER THE SOURCE** before responding, clicking on links, or opening attachments.

Dear Director Review team,

Yesterday, Patent Owner Signify filed a Request for Director Review of the Final Written Decision in the above-referenced IPR. However, during the filing process, Patent Owner encountered an issue in PTACTS, where the "File a request for Director Review" selection option (as indicated in Step 3 of the USPTO's "How to File a Director Review Request" guide) was not visible on the PTACTS system.

To ensure that the Director Review Request was submitted in the record and accorded yesterday's filing date, Patent Owner filed this Request under the "Rehearing request" category, and properly served this Request on Petitioner. A screenshot of the PTACTS dashboard as seen by Patent Owner is provided below, confirming the absence of the "File a request for Director Review" selection option.

Patent Owner respectfully requests a corrective designation of this filing (Paper 49) as a Director Review Request, so that the Request may be properly forwarded to Director Stewart for consideration. If any further action is required by Patent Owner to complete this operation, please let us know.

Best regards,
Steve Yam
