

NJOY

Dr. Glenn Vallee

In The Matter of Certain Vaporizer Devices, Cartridges
Used Therewith, and Components Thereof

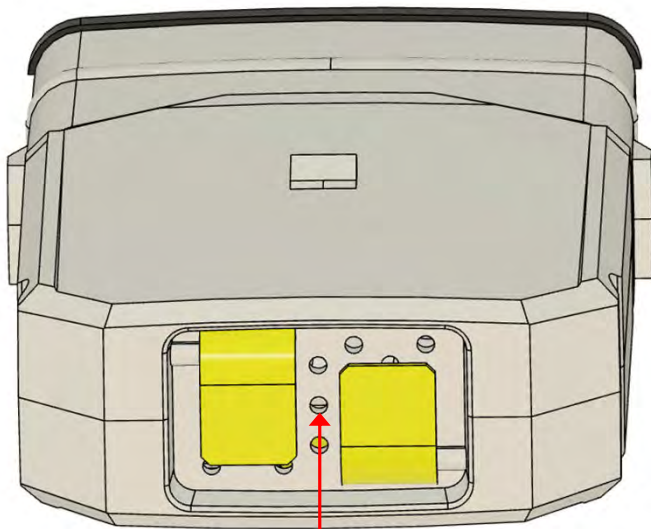

Investigation No. 337-TA-1372

NJOY Exhibit 2043.001
Juul v. NJOY
IPR2024-00160

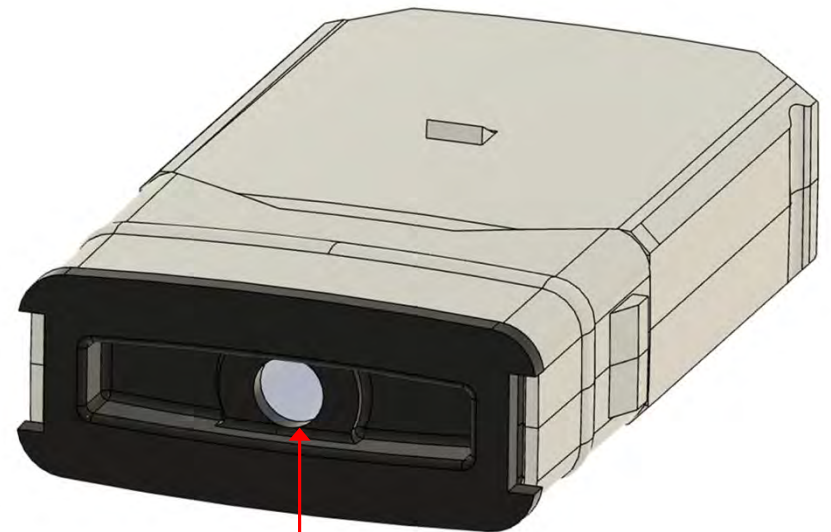

JUUL - 881 Patent, Limitation [16.4]

[16.4]

the housing having a first aperture on the first end and a second aperture on the second end, the first aperture having a cross-sectional area measured perpendicular to the central longitudinal axis of the housing,

First aperture
at first end

Second aperture
at second end

Juul v. NJOY
IPR2024-00160

JUUL - 881 Patent, Limitation [16.5]

[16.5]

the first end of the housing having an electrically conductive portion adapted to mechanically and electrically couple to an electrically conductive portion of the power source;

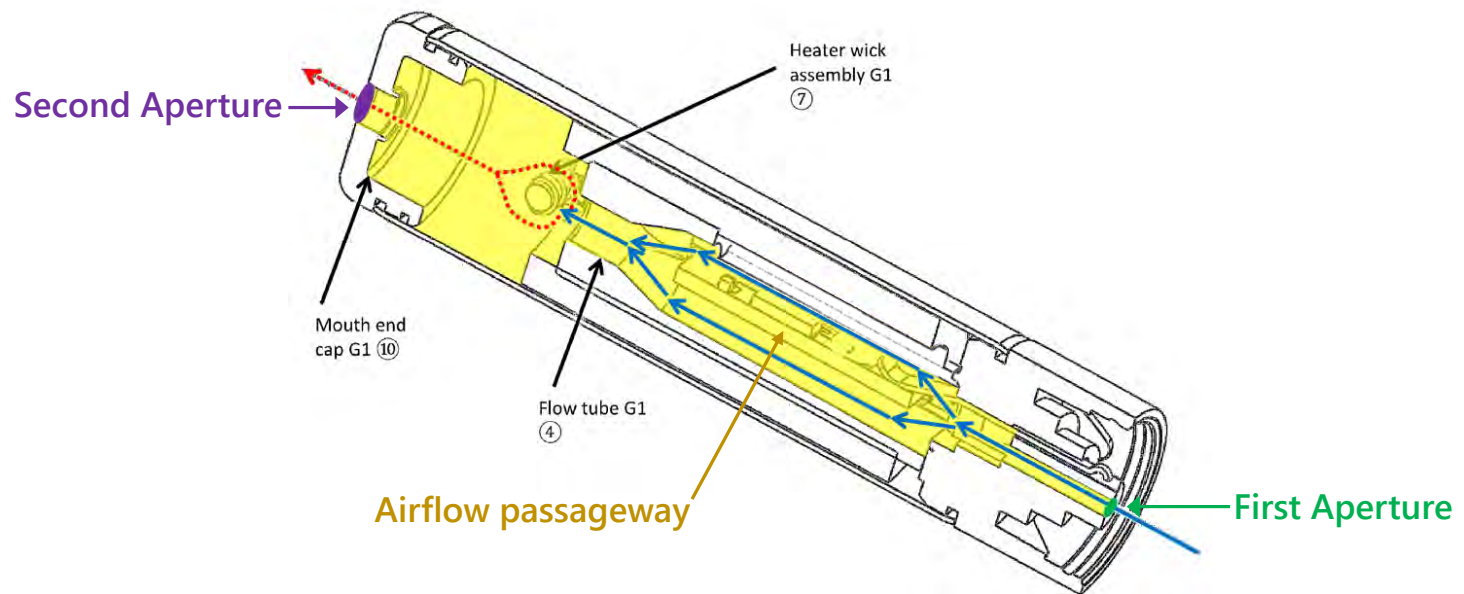

Vuse Solo – 881 Patent, Limitation [1.7]

[1.7]

wherein the housing includes an airflow passageway that extends centrally and axially with respect to the housing intermediate of the first aperture on the first end of the housing and the second aperture on the second end of the housing, wherein the airflow passageway is configured to allow an airflow through the cartridge from the first aperture to the second aperture of the housing,

G1 Cartridge
