

EX1008
Chart Cross-Comparing the Limitations of Challenged Claims 1 and 19
of U.S. Patent No. 8,649,971

Challenged Claim 1	Challenged Claim 19
[Claim 1, 1-PRE] A navigation device comprising:	[Claim 19, 19-PRE] A navigation method performed by utilizing a navigation apparatus, comprising:
[1a] a setting unit configured to set waypoints and a destination;	[19a] setting, by utilizing a setting unit of the navigation apparatus, waypoints and a destination;
[1b] a route searching unit configured to search for a whole route leading to the destination via the waypoints set by said setting unit;	[19b] searching, by utilizing a route searching unit of the navigation apparatus, for a whole route leading to the destination via the waypoints set by said setting step;
[1c] a route guidance unit configured to carry out route guidance according to the whole route which is searched for by said route searching unit;	[19c] carrying out, by utilizing a route guidance unit of the navigation apparatus, route guidance according to the whole route which is searched for by said route searching step;
[1d] an output unit configured to output a message showing that a vehicle has deviated from a route leading to a first next waypoint toward which the vehicle has been heading when said route guidance unit determines that the vehicle has deviated from the route to a predetermined distance or more and is traveling along a route after said first next waypoint; and	[19d] outputting, by utilizing an output unit of the navigation apparatus, a message showing that a vehicle has deviated from a route leading to a first next waypoint toward which the vehicle has been heading when, by said route guidance step, it is determined that the vehicle has deviated from the route to a predetermined distance or more and is traveling along a route after said first next waypoint; and
[1e] an input unit configured to input a command indicating whether or not to travel via said first next waypoint in response to the message outputted by said output unit.	[19e] inputting, by utilizing an input unit of the navigation apparatus, a command indicating whether or not to travel via said first next waypoint in response to the outputted message.
