

Patents

The following products are protected by one or more patents in the U.S. and may be protected by one or more patents in other jurisdictions around the world. This website is provided to satisfy the virtual patent marking provisions of various jurisdictions including the virtual patent marking provisions of the America Invents Act and provide notice under 35 U.S.C. §287(a). The following list of products and patents may not be all inclusive. For example, some products listed here may be covered by patents in the United States and elsewhere that are not listed, and other products not listed here may be protected by one or more patents in the United States and elsewhere. The following list of products may be covered by one or more of the following U.S. Patents.

United States Patent No.	Title	Products Covered by Patent
11,766,801	HIGH SPEED SLICING MACHINE	• POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities
11,627,745	APPARATUS AND METHOD FOR FLATTENING MEAT PRODUCTS	• Hoegger® TrimX® meat sizing system
11,627,744	APPARATUS AND METHOD FOR CUTTING MEAT PRODUCTS INTO BLOCKS OF MEAT	• Hoegger® TrimX® meat sizing system
11,458,480	GROOVED CHAMBER FOR A FOOD-PRODUCT SEPARATION MACHINE	• Any chamber for a food product separating machine with a circumferential side wall having apertures and at least one V-shaped groove disposed along an inner surface of the side wall, with the groove defined by a vertex, two legs extending from the vertex, and an angle bisector of the vertex which is tilted relative to the radius of the chamber that is used in BELUGA® food processing equipment; and BELUGA® food processing equipment having a chamber with a circumferential side wall having apertures and at least one V-shaped groove disposed along an inner surface of the side wall, with the groove defined by a vertex, two legs extending from the vertex, and an angle bisector of the vertex which is tilted relative to the radius of the chamber.
11,412,744	PRESS FOR FORMING PRESSING MEAT PRODUCTS, AND METHOD OF USE	• Hoegger® X3 Press • Hoegger® X4 Press

11,407,137	CONVEYOR SYSTEM FOR CONVEYING FOOD PRODUCTS AND ASSOCIATED OPERATING METHOD	Formax® SX-Loader
11,383,399	HIGH SPEED SLICING MACHINE	POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities
11,291,210	SPIRAL COOKING DEVICES AND METHODS OF USING SAME	- Weiler® Hot Airflow Steam Cooker – Spiral variety - T-HEX Spiral Cooker
11,225,347	CONVEYOR DEVICE FOR CONVEYING FOOD PRODUCTS	- SX330 slicer when used with Formax® SX-Loader having overlapping system - SX380 slicer when used with Formax® SX-Loader having overlapping system
11,203,022	SEPARATOR FOR A FOOD-PRODUCT GRINDING MACHINE WITH METERING AUGER	- DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use 1109 - SH11 - Omni V 1409
11,202,452	APPARATUS AND METHOD FOR CUTTING MEAT PRODUCTS INTO BLOCKS OF MEAT	Hoegger® TrimX® meat sizing system
11,198,565	MULTI-PRESENTATION SLICING CONVEYOR	SX380 slicer Back Clamp version
11,148,313	FOOD LOG SLICING APPARATUS FOR SLICING MULTIPLE LAYERS OF STACKED FOOD LOGS	POWERMAX®3500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities

11,173,497	SEPARATOR FOR A FOOD-PRODUCT GRINDING MACHINE WITH RING ADJUSTMENT	• DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • 1109 • SH11 • Omni V 1409
10,986,853	RETRACTING FOOD PROCESSING DEVICE IN A FOOD PROCESSING MACHINE	• SX380 slicer Back Clamp and Continuous Feed versions
10,980,270	PATTY-FORMING APARATUS WITH TOP FEED AND ROTARY PUMP	• NOVAMAX®500 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants • NOVAMAX®660 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants
10,974,409	CARTRIDGE FOR A FOOD PROCESSING MACHINE	• SX330 slicer • SX380 slicer
10,919,170	FOOD PRODUCT SLICING APPARATUS	• POWERMAX®3500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities
10,888,872	GROOVED CHAMBER FOR A FOOD-PRODUCT SEPARATION MACHINE	• Any chamber for a food product separating machine with a circumferential side wall having apertures and at least one V-shaped groove disposed along an inner surface of the side wall, with the groove defined by a vertex, two legs extending from the vertex, and an angle bisector of the vertex which is tilted relative to the radius of the chamber that is used in BELUGA® food processing equipment; and BELUGA® food processing equipment having a chamber with a circumferential side wall having apertures and at least one V-shaped groove disposed along an inner surface of the side wall, with the groove defined by a vertex, two legs extending from the vertex, and an angle bisector of the vertex which is tilted relative to the radius of the chamber.
10,842,322	ROTARY MOLDING DEVICE	• VERTEX®660 food processing equipment, namely, commercial grade electric food processors • VERTEX®1000 food processing equipment, namely, commercial grade electric food processors

10,842,176	FACILITY FOR THAWING OR TEMPERING FROZEN FOOD PRODUCTS	• DGV 1 defrosting chamber • DGV 2 defrosting chamber • DGV 3 defrosting chamber • DGV 4 defrosting chamber • DGV 5 defrosting chamber • DGV 6 defrosting chamber • DGV 7 defrosting chamber • DGV 8 defrosting chamber • DGV 9 defrosting chamber • DGV 10 defrosting chamber • DGV 1+1 defrosting chamber • DGV 2+2 defrosting chamber • DGV 3+3 defrosting chamber • DGV 4+4 defrosting chamber • DGV 5+5 defrosting chamber
10,836,065	EXPOSED LOAD CELL IN A FOOD PROCESSING MACHINE	• SX330 slicer • SX380 slicer
10,780,603	INTERLEAVER SYSTEM FOR HIGH SPEED SLICING MACHINE HAVING BRAKE FOR WEB SUPPLY	• POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities
10,773,893	SHUTTLE CONVEYOR SYSTEMS FOR USE WITH A PATTY FORMING MACHINE	• MAXUM® 700 food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products
10,743,555	METHOD FOR DRYING FOOD PRODUCTS	• LUTETIA® tumbler types 0, 1, 2, 3, 4, 5, 6, 7, 40, 400
10,639,812	HIGH SPEED SLICING MACHINE	• POWERMAX® 3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities
10,639,798	GRIPPER ACTUATING SYSTEM IN A FOOD PROCESSING MACHINE	• SX380 slicer
10,625,436	HIGH SPEED SLICING MACHINE	• POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities

10,618,055	SEPARATOR FOR A GRINDING MACHINE	• DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • 1109 • SH11 • Omni V 1409
10,463,187	COOKING DEVICES AND METHODS OF USING THE SAME	• T-HEX* Spiral Cooker
10,448,650	SPIRAL COOKING DEVICES AND METHODS OF USING SAME	• T-HEX* Spiral Cooker
10,384,889	METHOD AND APPARATUS FOR A CARD DISPENSER	• Servo Card Dispenser for feeding J-boards or carrier boards
10,383,354	PATTY-FORMING APPARATUS WITH TOP FEED AND ROTARY PUMP	• NOVAMAX®500 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants

10,350,605	SEPARATOR FOR A GRINDING MACHINE	• DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • 1109 • H11 • Omni V 1409
10,160,602	CONFIGURABLE IN-FEED FOR A FOOD PROCESSING MACHINE	• SX380 slicer
10,124,506	INTERLEAVER SYSTEM FOR HIGH SPEED SLICING MACHINE	• POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities
10,011,053	METHOD AND APPARATUS FOR ROTARY MOLDING	• VERTEX®250 food processing equipment, namely, commercial grade electric food processors • VERTEX®660 food processing equipment, namely, commercial grade electric food processors • VERTEX®1000 food processing equipment, namely, commercial grade electric food processors
9,999,241	CONVEYOR BELT SEAL	• F-26 forming system • Classic F26 Plus forming system • ULTRA26® electric food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food • MAXUM700® food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products

9,975,126	DUAL TAPERED ORIFICE PLATE FOR A GRINDING MACHINE	- Any of the following when used with part number 107-0621 mold plate: 6C 806 878 878AG 1102 1107 1109 1109AG 1612 - DOMINATOR® 8 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial - DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - Omni V 1107 - Omni V 1109 - Omni V 1409
9,955,719	PATTY-FORMING APPARATUS WITH TOP FEED AND ROTARY PUMP	NOVAMAX®500 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants
9,888,696	AUTOMATED PRODUCT PROFILING APPARATUS AND PRODUCT SLICING SYSTEM USING SAME	- POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - POWERMAX®3500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - POWERMAX®4500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - SX380 slicer

9,861,109	PATTY-FORMING APPARATUS WITH BOTTOM FEED AND ROTARY PUMP	• NOVAMAX®500 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants • NOVAMAX®660 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants
9,521,853	FOOD PUMP WITH A LINEAR DISPLACEMENT SENSOR FOR A FOOD PATTY MOLDING MACHINE	• ULTRA26® electric food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products • MAXUM® 700 food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products
9,480,266	SEPARATION CHAMBERS FOR DEBONING MACHINES	• Any of the following when used with part number D/N 9870 or with part number D/N 9444: – BARRACUDA® food processing equipment, namely, commercial grade electric food processors – BEEMAX® food processing equipment, namely, commercial grade electric food processors – PIRANHA® power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use – RSDD04 – RSP12 – RSTD06
9,480,265	DEBONING MACHINE AUGER MOUNT ASSEMBLY	• Any of the following when used with any of part numbers D/N 103434-D F/RSTC02/RSBF02, D/N 103624-D F/RSTC04/RSBF04/RSP12, D/N 103648-D F/EPAD04/RSDD04/RSTC06, D/N 103645-D F/EPAD06/RSTD06: – BARRACUDA® food processing equipment, namely, commercial grade electric food processors – BEEMAX® food processing equipment, namely, commercial grade electric food processors – PIRANHA® power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use – RSDD04 – RSP12 – RSTD06
9,457,495	ROTARY MOLD SYSTEM FOR MOLDING FOOD PRODUCTS	• VERTEX®250 food processing equipment, namely, commercial grade electric food processors • VERTEX®660 food processing equipment, namely, commercial grade electric food processors • VERTEX®1000 food processing equipment, namely, commercial grade electric food processors
9,399,531	SHEET INTERLEAVER FOR SLICING APPARATUS	• CASHIN® electrically and electronically operated machines for slicing, forming, dispensing, arranging and proportioning meat • CPOWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities

9,301,534	SYSTEM FOR FOOD PRODUCT CASING REMOVAL	• POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®3500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®4500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities
9,296,120	METHOD OF PRODUCING DRAFTS OF SLICED FOOD PRODUCTS WITH DESIRED WEIGHTS AND A DUAL SCALE WEIGHING SYSTEM FOR PRODUCING DRAFTS OF DESIRED WEIGHTS	• POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®3500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®4500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • SX380 slicer
9,285,213	AUTOMATED PRODUCT PROFILING APPARATUS AND PRODUCT SLICING SYSTEM USING SAME	• POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®3500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®4500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • SX380 slicer
9,271,508	SEPARATION CHAMBERS FOR DEBONING MACHINES	• Any of the following when used with part number D/N 9870 or with part number D/N 9444: – BARRACUDA® food processing equipment, namely, commercial grade electric food processors – BEEMAX® food processing equipment, namely, commercial grade electric food processors – PIRANHA® power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use – RSDD04 – RSP12 – RSTD06

9,266,114	SEPARATOR FOR A GRINDING MACHINE	• DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use
9,179,685	DEBONING MACHINE	• AUTO CAM deboning machine

9,162,230	DUAL TAPERED ORIFICE PLATE FOR A GRINDING MACHINE	• Any of the following when used with part number 107-0621 mold plate: - 6C - 806 - 878 - 878AG - 1102 - 1107 - 1109 - 1109AG - 1612 - DOMINATOR® 8 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial - DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - Omni V 1107 - Omni V 1109 - Omni V 1409
9,161,651	DUAL DRUM SPIRAL OVEN	• Dual Spiral Oven
9,114,553	ROTARY MOLD SYSTEM FOR MOLDING THREE DIMENSIONAL FOOD PRODUCTS	• VERTEX®250 food processing equipment, namely, commercial grade electric food processors • VERTEX®660 food processing equipment, namely, commercial grade electric food processors • VERTEX®1000 food processing equipment, namely, commercial grade electric food processors
9,113,638	PATTY-FORMING APPARATUS WITH BOTTOM FEED AND ROTARY PUMP	• NOVAMAX®660 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants

9,107,426	SEPARATION CHAMBERS FOR DEBONING MACHINES	- Any of the following when used with part number D/N 9870 or with part number D/N 9444: - BARRACUDA® food processing equipment, namely, commercial grade electric food processors - BEEMAX® food processing equipment, namely, commercial grade electric food processors - PIRANHA® power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - RSDD04 - RSP12 - RSTD06
9,095,171	PATTY-FORMING APPARATUS WITH TOP FEED AND ROTARY PUMP	NOVAMAX®500 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants
8,978,529	FOOD ARTICLE FEED APPARATUS FOR A FOOD ARTICLE SLICING MACHINE	- POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - POWERMAX®3500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - POWERMAX®4500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - SX380 slicer
8,951,101	DEBONING MACHINE AUGER MOUNT ASSEMBLY	- Any of the following when used with any of part numbers D/N 103434-D F/RSTC02/RSBF02, D/N 103624-D F/RSTC04/RSBF04/RSP12, D/N 103648-D F/EPAD04/RSDD04/RSTC06, D/N 103645-D F/EPAD06/RSTD06: - BARRACUDA® food processing equipment, namely, commercial grade electric food processors - BEEMAX® food processing equipment, namely, commercial grade electric food processors - PIRANHA® power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - RSDD04 - RSP12 - RSTD06
8,850,938	MAINTENANCE AND SAFETY SYSTEM FOR A FOOD ARTICLE SLICING MACHINE	- POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - SX380 slicer
8,801,427	PATTY-FORMING APPARATUS WITH TOP FEED AND ROTARY PUMP	NOVAMAX®500 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants

8,753,107	APPARATUS FOR ROTARY MOLDING	• VERTEX®250 food processing equipment, namely, commercial grade electric food processors • VERTEX®660 food processing equipment, namely, commercial grade electric food processors • VERTEX®1000 food processing equipment, namely, commercial grade electric food processors
8,740,541	METHOD AND APPARATUS FOR A CARD DISPENSER	• Servo Card Dispenser for feeding J-boards or carrier boards
8,701,551	ADJUSTABLE ANTILIP SYSTEM FOR A PATTY FORMING MACHINE	• Any of the following when used with Stacked Breather: - F-6™ forming system - F-12 forming system - F-19™ forming system - F-26 forming system - F-400™ former - MAXUM® 700 food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products - NOVAMAX®500 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants - NOVAMAX®660 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants - ULTRA26® electric food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products
8,616,103	KNIFE BLADE RETRACTION MECHANISM FOR A FOOD ARTICLE SLICING MACHINE	• POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®3500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®4500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • SX380 slicer
8,613,615	PATTY-FORMING APPARATUS WITH BOTTOM FEED AND ROTARY PUMP	• NOVAMAX®660 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants

8,584,978	SEPARATOR FOR A GRINDING MACHINE	• DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use
8,549,966	OUTPUT CONVEYOR FOR A FOOD ARTICLE SLICING MACHINE	• POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®3500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®4000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®4500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • SX380 slicer
8,544,778	KNIFE HOLDER ARRANGEMENT FOR A GRINDER	• DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use
8,469,697	ROTARY MOLD SYSTEM FOR MOLDING FOOD PRODUCTS	• VERTEX®250 food processing equipment, namely, commercial grade electric food processors • VERTEX®660 food processing equipment, namely, commercial grade electric food processors • VERTEX®1000 food processing equipment, namely, commercial grade electric food processors

8,408,109	FOOD ARTICLE FEED APPARATUS FOR A FOOD ARTICLE SLICING MACHINE	• POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®3500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®4500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities
8,336,434	FOOD ARTICLE END DETECTION SYSTEM FOR A FOOD ARTICLE SLICING MACHINE	• POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®3500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®4500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities
8,317,506	LINEAR ACTUATOR ASSISTED KNOCKOUT MECHANISM FOR A FOOD PATTY FORMING MACHINE	• Any of the following when used with Air-assist K.O.: - F-6™ forming system - F-12 forming system - F-19™ forming system - F-26 forming system - F-400™ former - ULTRA26® electric food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products
8,286,902	GRINDER WITH EXPANSION ZONE	• DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use
8,276,491	FOOD ARTICLE LOADING MECHANISM FOR A FOOD ARTICLE SLICING MACHINE	• POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities
8,257,148	KNIFE INSERT WITH BOTTOM EDGE RELIEF FOR CUTTING EDGE ALIGNMENT	• Any knife holder sold by Provisur when used with part number 108-1411N42 or with part number 108-1102N42
8,250,955	FOOD ARTICLE TRANSFER MECHANISM FOR A FOOD ARTICLE SLICING MACHINE	• POWERMAX4000® industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities

8,038,086	METHOD OF MOUNTING AN ORIFICE PLATE GUARD TO A GRINDING MACHINE	• DOMINATOR® 8 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use
8,011,914	FOOD SUPPLY SYSTEM FOR A FOOD PATTY MOLDING MACHINE	• ULTRA26® electric food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products
7,946,517	FROZEN BLOCK GRINDER	• DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use

7,905,436	SELF-CORRECTING ORIFICE PLATE INSTALLATION FOR AN ORIFICE PLATE OF A GRINDING MACHINE	• DOMINATOR® 8 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use
-----------	---	---

7,886,998	SELF-CORRECTING PLATE GUARD MOUNTING FOR A GRINDING MACHINE	• DOMINATOR® 8 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use
7,862,330	ANGLED FILL PORTS AND SEAL-OFF ARRANGEMENT FOR PATTY-FORMING APPARATUS	• Any of the following when used with ULTI-MAX™: – F-6™ forming system – F-12 forming system – F-19™ forming system – F-26 forming system – F-400™ former – MAXUM® 700 food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products – NOVAMAX®500 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants – NOVAMAX®660 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants – ULTRA26® electric food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products

7,788,885	METHOD OF LOADING FOOD STACKS	- Stacked Depositing System (SDS) - Any of the following when used with Stacked Depositing System (SDS): - POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - POWERMAX®4000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - S180 slicer - SX380 slicer
7,766,264	VARIABLE PROFILE FLUTES FOR A GRINDING HEAD OF A GRINDING MACHINE	- DOMINATOR® 8 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use - DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use

7,744,025	SECONDARY GRINDING SECTION FOR AN ORIFICE PLATE OF A GRINDING MACHINE	• DOMINATOR® 8 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use
7,677,880	APPARATUS FOR FORMING HAND-FORMED STYLE PATTY USING A PATTY-FORMING MACHINE	• HOMESTYLE® electric food processing machines for use in commercial food processing, namely, machines for molding hamburgers, turkey burgers, sausage patties and other molded food products, and parts therefor

7,654,482	WEAR DISTRIBUTING ARRANGEMENT FOR WEAR PARTS OF A GRINDING MACHINE	• DOMINATOR® 8 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use
7,603,936	LOAF SEAM SYNCHRONIZATION DEVICE FOR CONTINUOUS LOAF FEED SLICING MACHINE	• S180 slicer Continuous Feed
7,591,644	COUNTER-BALANCED MOLD PLATE FOR FOOD PATTY MOLDING MACHINE	• TRU-GLIDE™ component parts of electric machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products, namely, mold plates

7,581,690	CONSTANT FORCE ASSEMBLY FOR AN ORIFICE PLATE OF A GRINDING MACHINE	• DOMINATOR® 8 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use
-----------	--	---

7,461,800	FLUTED RAMPED ENTRYWAYS OF AN ORIFICE PLATE FOR A GRINDING MACHINE	• DOMINATOR® 8 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11MG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 11/210A power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14 power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® MG14/360B power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 14SF power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16BG power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use • DOMINATOR® 16PB power-operated machines for grinding, separating, mixing and/or otherwise processing foods or other products, namely, electric food and beverage processing machines for commercial use
7,422,425	DRIVE SYSTEM FOR A KNOCKOUT APPARATUS FOR A PATTY-FORMING MACHINE	• MAXUM® 700 food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products • NOVAMAX®500 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants • NOVAMAX®660 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants
7,404,481	RETAINING PINS FOR STACKING CONVEYOR FOR SLICING MACHINE	• POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®3500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®4000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • POWERMAX®4500 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities • S180 slicer
7,335,013	DRIVE SYSTEMS FOR A RECIPROCATING MOLD PLATE PATTY-FORMING MACHINE	• MAXUM® 700 food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products

7,328,542	LOADING APPARATUS FOR FOOD STACKS	- Stacked Depositing System (SDS) - Any of the following when used with Stacked Depositing System (SDS): - POWERMAX®3000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - POWERMAX®4000 industrial electric food processing machines, namely, machines for slicing food products for packing and packaging in commercial quantities - S180 slicer - SX380 slicer
7,318,723	FRAME FOR A PATTY-FORMING APPARATUS	MAXUM® 700 food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products
7,309,228	HYDRAULIC PUMP SYSTEM FOR A PATTY-FORMING APPARATUS	- MAXUM® 700 food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products - NOVAMAX®660 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants
7,299,728	LOAF END TRIMMING STATION FOR SLICING MACHINE	S180 slicer
7,255,554	COOLING AIR SYSTEM FOR A PATTY-FORMING APPARATUS	MAXUM® 700 food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products
7,175,417	APPARATUS FOR FORMING FOOD PATTIES HAVING SURFACE INDENTATIONS	- Any of the following when used with part number 60608436, part number 60610029, part number 60610571 or part number 6061893: - F-6™ forming system - F-12 forming system - F-19™ forming system - F-26 forming system - F-400™ former - MAXUM® 700 food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products - NOVAMAX®500 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants - NOVAMAX®660 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants - ULTRA26® electric food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products
7,159,372	SHEET INTERLEAVE SYSTEM FOR PATTY-FORMING APPARATUS	- MAXUM® 700 food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products - NOVAMAX®500 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants - NOVAMAX®660 food processing equipment, namely, commercial grade electric food processors, not including food processing equipment used in residential kitchens and restaurants - ULTRA26® electric food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products

RE44,744	FOOD MOLDING MECHANISM FOR A FOOD PATTY MOLDING MACHINE	ULTRA26® electric food processing machines, namely, machines for molding, stacking, scoring, and rolling hamburgers, steaks and other molded food products
