The final written decisions have been entered in IPR2024-00228, IPR2024-00229, and PGR2024-00011. Due to confidentiality concerns, each of these final written decisions was sealed and entered as only available to the parties and the Board. Publicly available final written decisions must be entered in each of these cases. On July 16, 2025, the parties were ordered to file in each of these proceedings a joint document indicating the proposed confidentiality redactions to be made in the final written decisions entered in these proceedings in order that publicly available versions of these final written decisions may be entered. Paper 58.¹ On July 25, 2025, the parties filed a Joint Response Regarding Confidentiality Of Final Written Decision which stated “Petitioner and Patent Owner jointly notify the Board that they have no redactions to the Final Written Decision (Paper 57) issued July 11, 2025.” Paper 59, 1. Accordingly, the final written decisions as previously entered in each of these proceedings shall be made publicly available without any confidentiality redactions.
