Counsel,

After further consideration, we have decided to allow Patent Owner to file the evidence identified in Exhibit 3005. In particular, Patent Owner may: 1) make Dr. Madisetti's declarations available in each of the above captioned IPRs, and 2) make Dr. Duckworth's direct testimony from IPR2022-01291 available in each of the above captioned IPRs, and 3) file an expert declaration limited to addressing subject matter that Patent Owner alleged in its Motion to Strike was new evidence and/or new argument. Such evidence shall be filed on or before May 2, 2025. In addition, Patent Owner may file a seven page Supplemental Brief limited to addressing evidence newly of record. Patent Owner's Supplemental Brief shall be filed on or before May 2, 2025.

In the event Patent Owner files an expert declaration addressing allegedly new evidence and/or new argument, Petitioner may, after deposing Patent Owner's witness, file observations identifying cross-examination testimony. Petitioner's observations shall be a list in the form: "In response to Patent Owner's citation at ___, Petitioner cites the transcript at ___ for context." Petitioner's observations shall not include any further argument or commentary. Petitioner's observations shall be filed on or before May 23, 2025.
