ON0.00% ☆

For most investors, how much a stock's price changes over time is important. Not only can it impact your investment portfolio, but it can also help you compare investment results across sectors and industries

Another thing that can drive investing is the fear of missing out, or FOMO. This particularly applies to tech giants and popular consumer-facing stock

What if you'd invested in ON Semiconductor Corp. (ON) ten years ago? It may not have been easy to hold on to ON for all that time, but if you did, how much would your investment be worth today?

ON Semiconductor Corp.'s Business In-Depth

With that in mind, let's take a look at ON Semiconductor Corp.'s main business drivers.

Greenthread Ex. 2009, p. 1
Semiconductor v. Greenthread

onsemi's product lines include discrete, such as bipolar transistors, diodes, filters, FETs, rectifiers and thyristors

onsemi's acquisition of GT Advanced Technologies will help the company to grow and innovate disruptive intelligent power technologies. Moreover secure supply c SiC to meet growing demand of customers for SiC based solutions. Moreover, the company's acquisitions of Cypress Semiconductor's CMOS Image Sensor Business Unit, SANYO Semiconductor, AMI Semiconductor, Analog Devices' power PC controller business, CMD, Catalyst, and SoundDesign gave it new technical capabilities, some custom ASIC products, higher-margin products, exposure to new end markets and greater product breadt

The power management product line includes AC-DC controllers and regulators, DC-DC converters and regulators, drivers, thermal managers, and voltage controllers, references and supervisors.

The logic product line includes clocking, memory, differential logic and standar logic products.

Signal processing products include amplifiers and comparators, analog switches, digital potentiometers, DSP systems and interfaces

The company also offers custom application specific integrated circuits (ASICs), foundry services and memory products

Customers include OEMs, electronic manufacturing service (EMS) providers and distributors. Top OEM customers include Motorola, Delta, Hewlett-Packard Samsung, Siemens, Apple, Dell, Nokia, Intel, Sony, Continental Automotive Systems, DaimlerChrysler, Delphi, TRW and Visteon.

Top distributor customers include Arrow, Avnet, EBV Elektronik, Future, Solomor Enterprise and World Peace. Top EMS customers are Flextronics, Jabil and Celestica.
