

About Us

WELL SITE COMPLETION EXPERTS

XStim Consulting provides well site supervision and technical support to the Oil & Gas Industry in various fields throughout the world. Our team manages all upstream operations from drilling to completions. Our goal is to optimize operations and maximize performance through experience and communication.

Together we have a combined work experience of over 40 years where we have developed a network of experts & professionals in the Oil & Gas Industry. These are professionals who we know can get the job done safely and efficiently. We would like to introduce you to these people and help you optimize your operation.

Each of our partners have a strong technical background with engineering roots. Partnered up we have a well rounded team combined of drilling and completion engineers that are operationally focused to manage any project. We like to pride ourselves in bridging the gap between engineering and operations.

Why Work With Us

DRILLING OPERATIONS · COMPLETION
OPERATIONS

We know that it takes more than just a plan to complete a project, it takes people and someone to manage that plan. Our greatest asset are these people. That is why we take pride in the people we represent to help with your operation. Anyone we recommend or provide is of the highest caliber, most qualified, and best fit for your operational needs.

Our reputation is known for providing consultants with nothing but the best experience and attitudes. We do this by recommending and providing qualified and goal oriented personnel for our clients projects. Our consultants help bridge the gap between engineering and operations.
