Battery life and charge cycles vary by use and settings. See apple.com/batteries and apple.com/iphone/battery.html for more information.
5. USB 3 cable with 10Gb/s speed required.
6. Data plan required. 5G, Gigabit LTE, LTE, VoLTE, and Wi-Fi calling are available in select markets and through select carriers. Being a Participant who is reported to the credit bureaus on an account that has a negative payment history (e.g. the account goes past due) or is over utilized can have negative effects on your credit. The account payment history will be reported for Participants who opt in, which could help or hurt a credit score. If you are a Co-Owner, that means joint responsibility for all aspects of the account, including all transactions and payment obligations.
