                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  | |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |   |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  | |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  | |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  | |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  | |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |   |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  | |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  | |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  | |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  | |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |   |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  | |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  | |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  | |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  | |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |   |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  | |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  | |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  | |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  | |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |   |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |  |  |  |       |  |      |  |  |  |  |  |       |          |         |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |   |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |  |     |  |  |  |  |  |  |  |  |
