ETSI announces live presentations at MWC

News Archives

ETSI has announced a series of free technical presentations to be given at the Mobile World Congress in Barcelona this year.

LTE Security (14th), Machine-to-Machine (15th) and Femto cell evolution (16th) are the three topics for the expert sessions, starting at 17:00hrs each day, at the ETSI Stand in Hall 2 (F41) of the Congress.

FCC selects LTE for USA Public Safety

The USA's Federal Communications Commission has announced its support for the LTE standard for Nationwide broadband communications for First responders (Emergancy services).

In a press release issued on the 25th January 2011, the FCC has announced that "...all 700 MHz public safety mobile broadband networks [are] to use a common air interface, specifically Long Term Evolution (LTE), to support roaming and interoperable communications... "
