Larry Ciaccia

President Black River Advisors LLC

March 10, 2012, Larry worked with Ramesh but they were at different companies

I have had the pleasure with working with Ramesh over the last 18 months on industry based alliances for next generation authentication solutions. Ramesh has a passion and vision for driving fingerprint based authentication into the mainstream that transcends company competitive boundaries. He has leveraged his broad industry contacts, technical skills and reputation for dealing with partners in a highly ethical manner to facilitate cooperation across a diverse range of small and large companies across the ecosystem.

Taher Elgamal

Partner, Evolution Equity Partners, Father of SSL

February 1, 2012, Taher worked with Ramesh on the same team

I have known Ramesh for over 10 years since his time at Phoenix Technologies. I found him to be very innovative, hard working and capable of getting his teams to over perform. He has exceedingly good abilities in building and maintaining business relationships. Ramesh is highly recommended for leadership or business development efforts that are generally viewed difficult to accomplish.
