Proceedings Via Telephone;

Wednesday, August 28, 2024

-000-

JUDGE ENGELS: Hello. This is Judge Nathan Engels with the Patent Trial and Appeal Board.

This is a telephone conference to discuss Case Numbers IPR2023-00910, IPR024-00245, IPR2024-00327, IPR0024-00372, and IPR2024-00374.

Can we begin with appearances from the parties. Who's on the line for petitioner?

MR. MONALDO: Good morning, your Honor. This is Jeremy Monaldo for Petitioner Samsung.

JUDGE ENGELS: And who's on the line for patent owner?

MR. LAMBRIANAKOS: Good morning, your Honor. This is Peter Lambrianakos for the patent owner.

JUDGE ENGELS: And do we have a court reporter on the line?

THE REPORTER: Good morning, your Honor. This is Lindsay Jagich. I'm the court reporter.

JUDGE ENGELS: Thank you very much.

With me on the line are Judges Repko and Judge Gerstenblith.

We're here today to discuss petitioner's E-mail -- it's about the joint E-mail notifying the Board

1 of a potential settlement; and we'd like to, I guess,
2 begin with a summary of where the parties are in the
3 settlement process, beginning with petitioner.

4 MR. MONALDO: Thank you, your Honor.

5 So the parties have reached a settlement in
6 principle. They're working to finalize the agreement.

7 The parties have represented to each other that
8 they would endeavor to have the settlement agreement
9 completed by September 13th of this year. That's not a
10 hard deadline. Delays could happen, but that is what the
11 parties are working toward, so that would be what we
12 would expect to occur and hopefully be in position to
13 file motions to terminate or at least provide the Board
14 with an update the following week, the week of September
15 16th through 20th.

16 JUDGE ENGELS: Thank you.

17 And, patent owner, is that consistent with your
18 understanding?

19 MR. LAMBRIANAKOS: Yes, your Honor, that is
20 consistent with our understanding. We have received a --
21 forms of settlement agreement from -- from Samsung, and
22 we're working on those now, and we believe the process is
23 moving forward, and we think that the September 13th date
24 that the parties agreed to is a realistic one.

25 JUDGE ENGELS: Okay. So we are -- are not going

1 to stay these cases. As you likely know, the Patent
2 Trial and Appeal Board is bound by statutory deadlines;
3 and in particular to the '910 case, the deadline for the
4 final written decision is approaching.

5 That said, we -- we will take the hearing for
6 the '910 case off calendar, and we can issue an order
7 reflecting that. We'll note that if it does -- if
8 settlement discussions in the process does extend too
9 close to the deadline for the final written decision,
10 there does become a point where we have to move forward.

11 And -- and to that end, I suppose we will ask
12 whether the parties still intend to -- to have oral
13 arguments or whether they would waive oral arguments, you
14 know, depending on the timing.

15 At this point we will expressly authorize the
16 parties to file a joint motion to terminate and a request
17 to keep separate the settlement agreement along with
18 filing true and correct copies of any agreements relating
19 to settlement. You do not need to request the Board --
20 the Board's authorization to file those. We will
21 consider this that authorization.

22 And we would -- we would ask that you all keep
23 us apprised of the -- the process for a written
24 settlement agreement, particularly if it does look like
25 it will extend beyond September 13th, your projected

1 timing. And to that end, we perhaps could even request
2 that you all provide an update even sooner, maybe next
3 Friday, September 6th.

4 But -- and then the parties had also E-mailed
5 regarding petitioner's potential request to file motions
6 in the '372 and '374 case. You know, given the -- the
7 status of potential settlement, we'd ask the parties to
8 notify us if there is, in fact, a need for another call
9 to discuss those potential motions.

10 Similarly the parties can discuss -- confer with
11 each other and agree for adjustment of Due Dates 1
12 through 3 in those cases as necessary.

13 Are there any other issues to discuss today from
14 the parties' view?

15 MR. MONALDO: Not from petitioner, your Honor.

16 MR. LAMBRIANAKOS: Not from patent owner, your
17 Honor.

18 JUDGE ENGELS: Okay. One -- give me one moment,
19 please.

20 Okay. Very well. That's all we need to discuss
21 today. As I mentioned, we'll issue an order to the '910
22 case taking the hearing off calendar, and -- and please
23 do keep us apprised of any discussions.

24 And if petitioner could see to it that this
25 transcript of this call is filed in the record for each

1 case, that would be helpful.

2 MR. MONALDO: Yes, we will make sure the
3 transcript is filed, your Honor.

4 JUDGE ENGELS: Thank you very much. Let's go
5 off the record, and that's all for today.

6 (The proceedings concluded at 8:08 a.m.)
