Your Honors,

The parties to the above-identified IPRs have reached an agreement in principle to settle the disputes between them. In view of this, the parties jointly request a call with the Board to discuss the Board's authorization to postpone the oral argument in IPR2023-00910 scheduled for September 12, 2024 and the conference call related to Petitioner's request to file a motion for supplemental information in IPR2024-00374 scheduled for August 28, 2024. Given the parties do not yet have a final settlement agreement, the parties would like to discuss with the Board a brief stay of these proceedings while the agreement is finalized and the timing for the ultimate filing of the joint motion to terminate and submission of the settlement agreement. The parties are working diligently on completing the final settlement agreement.

Counsel for both parties suggest repurposing the call scheduled at 11am ET on August 28, 2024 in IPR2024-00374 to discuss stay and ultimate termination of these IPRs.

Best regards,
Jeremy Monaldo
