Best Chemical Engineering Programs

Ranked in 2024, part of [Best Engineering Schools](#)

Chemical engineering involves chemistry, biology, math and physics. Graduates may become designers and inventors, potentially working with everything from nanotechnology to new energy. These are the top graduate chemical engineering programs. Each school's score reflects its average rating on a scale from 1 (marginal) to 5 (outstanding), based on a survey of academics at peer institutions. [Read the methodology »](#)

For full rankings, GRE scores and student debt data, sign up for the [U.S. News Engineering School Compass](#).

SUMMARY ^

Here are the Best Chemical Engineering Programs

- | | |
|---------------------------------------|--------------------------------------|
| Massachusetts Institute of Technology | University of Minnesota--Twin Cities |
| California Institute of Technology | Princeton University |
| Stanford University | University of Delaware |
| University of California, Berkeley | University of Michigan--Ann Arbor |
| Georgia Institute of Technology | |
