Coolest Pillow Ever

"I buy new pillows every few months, looking for something that's comfortable without being too hard or soft. Until the Ghost Pillow, I figured that the "perfect" pillow didn't exist. I stumbled upon the Ghost Pillow while searching online and I read countless reviews before I finally settled on trying it. It arrived quickly and I've been blissful ever since. Not only is it the coolest looking pillow, it's the best pillow I've ever slept on. It's definitely worth a try."

– Nicole D., 5-star review

Patented tech meets premium materials

Designed for the ultimate cooling comfort

What's Inside?

1- Ghost Ice Fabric Zippered Cover

Cool-to-the-touch cover neutralizes heat on both sides of the pillow

2 - Support Core

Made using aerated gel memory foam for continuous airflow

3 - Performance Cooling Side

Patented phase change material adjusts to your body heat in real-time

4 - Inner Aerated Mesh Cover

Allows for even more airflow

Meet the GhostPillow - Gel Memory Foam

Marc here, founder and CEO of GhostBed. After three neck surgeries, I was desperate to find a comfortable pillow. My solution? Create my own! Designed with patented technology and cushiony gel memory foam, the GhostPillow keeps you cool and comfortable all night long.

Cool Down in Real Time

Instant cooling, no matter which side your cheek is on

Did you know your body temperature changes throughout the night? GhostPillow's patented, heat-sensitive Phase Change material adjusts to your body heat to keep your sleep environment cool as a cucumber.

Like your own personal air conditioner

GhostPillow's double whammy of cool-burst airflow technology & moisture-wicking performance fabric keeps your head & neck cool, dry and comfortable.

No more nightly fluffing or flipping!

GhostPillow's ergonomic design keeps your spine aligned and your head supported, without overextending your neck. Plus, its pure gel memory foam core keeps it from collapsing overnight, so you'll never have to fluff it.

Far Better Than Expected

"This pillow is phenomenal. It does a better job at cradling my neck than "posture pillows" and is far cooler than any other pillow I have. I call it the "ch-illow" (I'm a sucker for bad puns). The GhostPillow has the perfect amount of support and has improved my sleep by no less than 20%. I'm going to get another one soon. Definitely worth the money."

Fantastic!

Though it is not as constantly cool as I was hoping, it is Super Comfortable. And it is nice to get that cool blast initially.

Hi David - Thanks for the great review! We're glad to hear you're finding the GhostPillow comfortable overall, even if the cooling effect isn't quite as pronounced as you'd hoped. It's good to know the initial cooling sensation hits the spot though. Thanks for being a valued customer! - Marc

Happy With It

The Ghost Pillow is perfect for me, soft on top but firm enough to hold my head from sinking in too low. I used to wake up with a sore shoulder due to insufficient head support. I've tried several memory foam pillows and this one is the best so far. i use a silk pillow case on it and it stays cool. The only negative thing I could say is the off-gassing when it is first opened but that dissipates in a couple of days.

Thanks Carole for the wonderful review! We're thrilled to hear the GhostPillow is providing you with the perfect balance of softness and support to alleviate any shoulder soreness from insufficient head and neck support. It's fantastic that the pillow's cooling properties have allowed you to enjoy a comfortable, temperature-regulated sleep experience. We appreciate you sharing the helpful tip about using a silk pillowcase to further enhance breathability. - Marc
