How customer reviews and ratings work

Customers say

Customers like the cooling, comfort, and neck support of the pillow. They mention it's weighted with cooling features and does a good job of staying cool. Some say it doesn't cause any neck pain and has helped improve their sleep quality. However, some customers feel the pillow is too thick and doesn't have a memory foam feel. Opinions are mixed on its value for money.

Nice Pillow

Reviewed in the United States on August 18, 2023

Color: White Size: King **Verified Purchase**

I waited a few weeks before writing this review. It's very difficult to find Info on this pillow but here's my take on it.

Height:

It's a nice height on the pillow. It has a 2" gusset which upon my research is a way to keep the inside foam and down at least 2" high.

Types of sleeping:

I find this pillow to be comfortable in all sleep positions. I do find that because it's not full foam that you don't get that full compression feeling so back sleep is not as comfortable to me as other pillows I've used but still very comfortable

Bought it for my wife and she loves it.

Spent a lot of time researching pillows and while I personally went with a PillowCube, I bought my wife this since she didn't like mine and she tends to get very hot while sleeping. Very happy with the purchase. She says it is very comfortable and keeps her cool

OK, not great

It is cool to the touch, but a bit firm for me. I think it's worth a try and, of course, I did not return because I used it. It's fine, but nothing to jump up and down about.

A Near Perfect Pillow

Reviewed in the United States on June 19, 2024

Color: White Size: King **Verified Purchase**

I was hesitant to order this pillow because it was so expensive. I was looking for a cooling pillow and after a previously purchased pillow lost it's "cool" after a few nights of sleeping on it, I was concerned that this Casper pillow would do the same.

The pillow is so comfortable. My only complaint is that it does not seem to hold the coolness all night. I find I need to flip the pillow over part way through the night. But, when I flip the pillow, it is perfectly cool.

The pillow is supportive without being too firm. I love this pillow!

Couldn't get past the smell

Reviewed in the United States on August 3, 2024

Color: White Size: Standard **Verified Purchase**

I can see how people would love this pillow because it has a nice cooling effect and it's probably the right height for most people. I have a somewhat short neck and so the pillow was too high for me, but the worst part was that I could not get the chemical smell out of it, even with airing it out for several days. The pillow was just permeated with that smell that comes from memory foam, so it had to go back, particularly at this price point.

Disappointed

Reviewed in the United States on July 2, 2024

Color: White Size: Standard **Verified Purchase**

This is now my 8th "cooling" pillow I have tried since Sealy discontinued their perfect extra firm heavy duty winter/summer pillow that lasted years. I bought so many of those for myself, friends and families. It was the perfect cooling pillow. Their new model is not. And neither is the Casper that I just bought.

This pillow has a nice density. I was hopeful! The support is good. But the cooling lasts a few minutes and then the heat is trapped and wakes me up. I bought the standard size which is a mistake as there is not enough room to find a new cold spot to flip and rotate.

As a regular pillow it is really well made. For hot sleepers, it is nothing spectacular.

Good pillow for hot sleepers

Reviewed in the United States on December 14, 2023

Color: White Size: Standard **Verified Purchase**

The pillow is a little bit low for me, but it has a very good support and cooling feature. I have been using the pillow for about a month now. I have no complaints. My neck doesn't hurt in the morning. I sleep cool the whole night. It is an investment, but I was worth the purchase.

Buy it

Reviewed in Canada on March 15, 2024

Color: White Size: King **Verified Purchase**

This is hands down the best cooling pillow I've ever had. It has been sold out on on casper's website for months and now I know why. I have tried so many pillows (Purple, Temperpedic, Bedgear and more), and none of them do the trick for this extremely hot sleeper.

Stays cool all through the night, is cooling to the touch, and is just the right thickness for me to sleep comfortably in any position (including on my stomach). I liked it so much I bought a second, even though the price is hefty, just it case it goes extinct like many a good pillow before it.

Not Enough Support for Side Sleepers

Reviewed in Canada on December 7, 2023

Color: White Size: Standard **Verified Purchase**

I have tried this pillow for several nights now. It is cool to the touch but it doesn't stay that cool throughout the night. I wake up in the middle of the night and the pillow is warm but that doesn't bother me.

The concept of this pillow is good but it's too soft and will not provide support for side sleepers.

HeatDelete™ Bands: These strategically placed bands prevent overheating. No more flipping your pillow in the middle of the night!

Snow Technology: Sleep cooler for 12+ hours. Yes, you read that right!

The cooling is magical

Reviewed in Canada on January 19, 2024

Color: White Size: King **Verified Purchase**

As a hot sleeper who is picky about pillows, this was a semi-expensive gamble but it really paid off. I had tried a few pillows in the past before landing on a Casper one, and when that one was due to be replaced I ran across this one while exploring their current offerings. The cooling technology sounded too good to be true, but it's been awesome and works way better than I'd hoped for. It feels great to lay down on, and the cooling feature is well worth it. I'm typically a side sleeper, but sometimes on my back as well, and no issues with this pillow in either position.
