Push-To-Talk over Cellular Consortium Phase 2 Specifications and Documentation

Background

In June 2003, an Agreement for Technology Cooperation for Push-To-Talk over Cellular (PoC) (the "Cor Agreement") was executed between Ericsson, Motorola, Nokia, Siemens, and AT&T Wireless Services, develop interim standards for Push-To-Talk over Cellular applications. As part of the the Consortium Ag participants agreed to post the Consortium Phase 2 Specifications and Documentation on their individual company Internet sites.

About the Documents

Motorola has not conducted an independent IPR review of these documents and the information contained therein, and makes no representations or warranties regarding third party IPR, including without limitation patents, copyrights or trade secret rights. These documents may contain inventions for which you must obtain licenses from Motorola or third parties before making, using or selling the inventions.

Motorola provides these materials "as is" without any warranties, either expressed or implied, including warranties of merchantability, fitness for a particular purpose or non-infringement. Motorola is not liable hereby disclaims any direct, indirect, punitive, special, incidental, consequential, or exemplary damages out of or in connection with the use of documents and the information contained in the documents.
