Authorization or Opt-Out of Authorization to Permit Access:

When this Application Data Sheet is properly signed and filed with the application, applicant has provided written authority to permit a participating foreign intellectual property (IP) office access to the instant application-as-filed (see paragraph A in subsection 1 below) and the European Patent Office (EPO) access to any search results from the instant application (see paragraph B in subsection 1 below).

Should applicant choose not to provide an authorization identified in subsection 1 below, applicant **must opt-out** of the authorization by checking the corresponding box A or B or both in subsection 2 below.

NOTE: This section of the Application Data Sheet is **ONLY** reviewed and processed with the **INITIAL** filing of an application. After the initial filing of an application, an Application Data Sheet cannot be used to provide or rescind authorization for access by a foreign IP office(s). Instead, Form PTO/SB/39 or PTO/SB/69 must be used as appropriate.

1. Authorization to Permit Access by a Foreign Intellectual Property Office(s)

A. Priority Document Exchange (PDX) - Unless box A in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the European Patent Office (EPO), the Japan Patent Office (JPO), the Korean Intellectual Property Office (KIPO), the State Intellectual Property Office of the People's Republic of China (SIPO), the World Intellectual Property Organization (WIPO), and any other foreign intellectual property office participating with the USPTO in a bilateral or multilateral priority document exchange agreement in which a foreign application claiming priority to the instant patent application is filed, access to: (1) the instant patent application-as-filed and its related bibliographic data, (2) any foreign or domestic application to which priority or benefit is claimed by the instant application and its related bibliographic data, and (3) the date of filing of this Authorization. See 37 CFR 1.14(h)(1).

B. Search Results from U.S. Application to EPO - Unless box B in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the EPO access to the bibliographic data and search results from the instant patent application when a European patent application claiming priority to the instant patent application is filed. See 37 CFR 1.14(h)(2).

The applicant is reminded that the EPO's Rule 141(1) EPC (European Patent Convention) requires applicants to submit a copy of search results from the instant application without delay in a European patent application that claims priority to the instant application.

2. Opt-Out of Authorizations to Permit Access by a Foreign Intellectual Property Office(s)

☐ A. Applicant **DOES NOT** authorize the USPTO to permit a participating foreign IP office access to the instant application-as-filed. If this box is checked, the USPTO will not be providing a participating foreign IP office with any documents and information identified in subsection 1A above.

☐ B. Applicant **DOES NOT** authorize the USPTO to transmit to the EPO any search results from the instant patent application. If this box is checked, the USPTO will not be providing the EPO with search results from the instant application.

NOTE: Once the application has published or is otherwise publicly available, the USPTO may provide access to the application in accordance with 37 CFR 1.14.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4258).

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Unbelievable comfort, and I adore the minis! Minis fit us thick-calved girls who can never wear boots!

Sure they are comfy but they look funny! My feet looked absolutely huge in these! What a shame, because I really needed them for my weekend plans.

I've had my Ugg Mini's for about a month now, and I love them. I wear them for errands, grocery shopping, schlepping the kids, etc. I have fleece-lined slippers that I wear in the house without socks, and I love that I don't have to put on socks when I need to run an errand. This is exactly why I bought them and they suit my purpose perfectly. The Mini's look great under the boot-cut yoga pants I live in, and they keep my ankles warm, too. One warning - they have no support. I wore them to the mall for about 3 hours, and my knees and hips were aching. And they do run a size big. I am usually an 11 and had to send those back for a size 10.

My first pair of Uggs, and I am in love. The first pair came in the right box with the wrong size inside. Zappos overnighted the correct size to me the next day. You do rock, Zappos. I found the mini to be a perfect size 8 - just like me. I live in them. Now I want another color for Christmas. I am newly retired and live in yoga pants. These minis are perfect with the basic black yogas or sweats. I watched students wear these for years but had only worn look-alikes. Now I know why people buy Uggs. Comfort with a capital C. Thanks Zappos. You made my holiday.

I ordered these boots yesterday and got them today! They are so cute and cozy! I like that they are shorter because they are not bulky and look great. I am a 7.5 and ordered a 7. They feel perfect and I can even fit my custom made insoles and still be comfortable. Without insoles they do not have good arch support.

Great Ugg boots. Very comfortable and look nice with casual pants. And if you're young. I am not. With skirts. I always order a half size up in Uggs. They seem to run a bit short for me. All purpose boot for the young. And old at heart!

Dear Sir:

This IDS is submitted under 37 C.F.R. §1.97(b) within any of the following time periods, whichever occurs last:

- (a) within three months of either the filing date of the application or the date of entry into the national stage; or
- (b) before the mailing date of First Office Action on the merits (i.e., not including actions such as restriction requirements); or
- (c) before the mailing of a First Office Action after the filing of a Request for Continuing Examination.

Applicant(s) submit herewith Form PTO-1449 (Information Disclosure Citation) together with copies of foreign patents, publications or other information of which applicant(s) are aware, which applicant(s) believe may be material to the examination of this application and for which there may be a duty to disclose in accordance with 37 C.F.R. §1.56. Applicant(s) respectfully submit that the citation of any reference on Form PTO-1449 does not constitute an admission that the reference qualifies as prior art.

It is requested that the information disclosed on the enclosed Form PTO-1449 be made of record in this application.

The year of publication is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the particular month of publication is not in issue.

Notice of Pre-AIA or AIA Status

The present application, filed on or after March 16, 2013, is being examined under the first inventor to file provisions of the AIA.

Drawing Objection

1. The drawing disclosure does not meet the requirements of 37 CFR § 1.84 because:
The broken lines depicting environmental structure are not evenly spaced in figures 1 - 7. All broken lines should appear as short, light, even dashed lines. Please see annotated print alphabet letter A for figure 5 as an example of unevenly spaced broken lines in figures 1 - 7. Better, shorter, lighter, evenly spaced broken lines are needed.

Annotated Print A:

Figure 5:

FIG. 5

2. The broken line oval on the inside edge of the boot collar is shown with two gaps in the continuity of the oval in figure 6, but this same oval shape is shown with no gaps in the continuity of the oval in figure 5 making the drawing views inconsistent. Please see annotated print alphabet letter B for this inconsistency in Figs 5 and 6. All drawing views should be made consistent.

Annotated Print B:

Figures 6 and 5:

Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency.

Additional replacement sheets may be necessary to show the renumbering of the remaining figures. If all the figures on a drawing sheet are canceled, a replacement sheet is not required. A marked-up copy of the drawing sheet (labeled as "Annotated Sheet") including an annotation showing that all the figures on that drawing sheet have been canceled must be presented in the amendment or remarks section that explains the change to the drawings.

Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action.

When preparing new drawings in compliance with the requirement therefor, care must be exercised to avoid introduction of anything which could be construed to be new matter prohibited by 35 U.S.C. 132 and 37 CFR 1.121.

Action on the Merits

Claim Rejection - 35 USC § 112(a) and (b) Rejection

The claim is rejected under 35 U.S.C. § 112 (a) and (b), as the claimed invention is not described in such full, clear, concise and exact terms as to enable any person skilled in the art to make and use the same, and fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

An even broken line transitions to a solid line on the inside edge of the boot collar in figure 1, but is shown as a continuous solid line in figure 6 making the drawing views inconsistent. Please see annotated print alphabet letter C for this inconsistency in Figs 1 and 6. All drawing views should be made clear and consistent throughout the drawing disclosure so that all details of the claimed design can be understood. Correction is needed to make the drawing views clear and consistent in figures 1 and 6.

Annotated Print C:

Figures 1 and 6:

The necessity for good drawings in a design patent application cannot be overemphasized. As the drawing constitutes the whole disclosure of the design, it is of utmost importance that it be so well executed both as to clarity of showing and completeness, that nothing regarding the design sought to be patented is left to conjecture. An insufficient drawing may be fatal to validity (35 U.S.C. 112,(a)). Moreover, an insufficient drawing may have a negative effect with respect to the effective filing date of a continuing application.

It is suggested that applicant may submit large, clear formal pen and ink drawings which show the details of the design clearly, accurately, and consistently in order that the examiner may be in a position to determine if the claim may be clarified without the addition of new matter (35 U.S.C. 132, 37 CFR 1.121). In the alternative, applicant may disclaim the areas or portions of the design which are considered indefinite and nonenabling by converting them to broken lines.

Failure to submit replacement correction sheets overcoming all of the deficiencies in the drawing disclosure set forth above, or an explanation why the drawing corrections or additional drawing views are not necessary will result in the rejection of the claim under 35 U.S.C. 112(a) and (b) or pre-AIA 35 U.S.C. 112, first and second paragraphs, being made FINAL in the next Office action.

Clarity, consistency and correction of the claim are required in order to obviate this rejection.

The claim stands rejected under 35 U.S.C. 112, (a) and (b) paragraphs.

Claim Rejections - 35 USC § 112(b)

Claim is rejected under 35 U.S.C. 112(b) or 35 U.S.C. 112 (pre-AIA), second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which the inventor or a joint inventor (or for applications subject to pre-AIA 35 U.S.C. 112, the applicant), regards as the invention.

If broken lines are included in the drawing, their use should be defined in the specification; i.e., environment, boundary, stitching, folds lines, etc. Dotted or broken lines may mean different things in different circumstances and it should be made entirely clear what they do mean. See *In re Blum*, 374 F.2d 904, 153 USPQ 177 (CCPA 1967).

The broken line statement in the specification is misleading due to the second sentence, reading “The broken lines which define the bounds of the claimed design form no part thereof.” which implies that a second character of broken line is present, i.e. one type of broken line to define the environment (ex. even dash) and another type of broken line to define the bounds of the claim (ex. dot-dot dash). As only one type of broken line is present in the drawing disclosure, correction is needed. Only an even dashed broken line is shown throughout the drawing disclosure in figures 1-7. No dashed-dot boundary line is present that would define the bounds of the claimed design.

Examiner suggests applicant cancel the second sentence in the broken line statement reading “The broken lines which define the bounds of the claimed design form no part thereof.” as it is unclear as to which broken lines applicant is stating define the bounds of the claimed design since no distinction has been made between the broken lines.

A statement similar to the following should be used to describe the broken lines on the drawing (MPEP § 1503.02, subsection III):

--The broken lines in FIGURES 1-7 represent portions of the footwear that form no part of the claimed design.--

A statement similar to the one above may be inserted in the specification preceding the claim.

Conclusion

The claim stands rejected under 35 U.S.C. 112 (b) and 35 U.S.C. 112 (a) and (b). The art of record not relied upon is cited as cumulative art.

AMENDMENT TO NON-FINAL OFFICE ACTION OF MARCH 26, 2021

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In response to the Non-Final Office Action mailed March 26, 2021, please enter the amendments to the application as follows:

Amendments to the Drawings begin at page 2.

Amendments to the Specification begin at page 3.

Remarks begin at page 4 of this paper.

Serial No. 29/712,482
Amendment dated April 14, 2021

IN THE DRAWINGS:

Submitted with this Amendment are 3 sheets of replacement drawings to be substituted for Figs. 1-7 of the drawings initially filed in this application.

Serial No. 29/712,482
Amendment dated April 14, 2021

IN THE SPECIFICATION:

Please replace the specification as follows:

The broken lines in FIGURES 1-7 represent portions of the footwear that form no part of the claimed design.

REMARKS

Applicant herewith responds to the non-final Official Action dated March 26, 2021. It is submitted that this Amendment places the application in condition for allowance, or in better form for appeal. No new matter is presented by this Amendment.

SPECIFICATION:

The Applicant has amended the specification to read as follows:

The broken lines in FIGURES 1-7 represent portions of the footwear that form no part of the claimed design.

OBJECTION TO DRAWINGS:

The drawing disclosure is objected to because:

1. The broken lines depicting environmental structure are not evenly spaced in figures 1 - 7. All broken lines should appear as short, light, even dashed lines. Better, shorter, lighter broken lines are needed.

In response, Applicant submits Replacement Sheets that have evenly spaced, shorter, lighter broken lines.

2. The broken line oval on the inside edge of the boot collar is shown with two gaps in the continuity of the oval in figure 6, but this same oval shape is shown with no gaps in the continuity of the oval in figure 5 making the drawing views inconsistent.

In response, Applicant submits Replacement Sheets that are consistent.

Serial No. 29/712,482
Amendment dated April 14, 2021

CLAIM REJECTION:

The claim is rejected under 35 U.S.C. 112, a and b paragraphs, as being indefinite and nonenabling because of the following reasons:

An even broken line transitions to a solid line on the inside edge of the boot collar in figure 1, but is shown as a continuous solid line in figure 6 making the drawing views inconsistent. Please see annotated print alphabet letter C for this inconsistency in Figs 1 and 6.

In response, Applicant submits Replacement Sheets that are consistent.

Applicant submits that all drawings are now consistent and that no new matter has been added.

Serial No. 29/712,482
Amendment dated April 14, 2021

CONCLUSION

Applicant submits that in view of the above-identified amendments and remarks, the claim in its present form is patentably distinct over the art of record. Allowance of the rejected claim is respectfully requested. Should the Examiner discover there are remaining issues which may be resolved by a telephone interview, the Examiner is invited to contact Applicant's undersigned attorney at the telephone number listed below.

Respectfully submitted,

Notice of Pre-AIA or AIA Status

The present application, filed on or after March 16, 2013, is being examined under the first inventor to file provisions of the AIA.

Acknowledgement is made of the response mailed on ***April 14, 2021***. Upon careful review and consideration, the 35 U.S.C. 112, (a) and (b) rejection, and the 35 U.S.C. 112 (b) rejection in the office action dated ***March 26, 2021*** are hereby withdrawn.

Ex-Parte Quayle Action

This application is in condition for allowance except for the following formal matters:

Drawing Objections

- a.) The broken lines showing environmental structure are unevenly spaced and not clearly defined on portions of the sole in figure 7. The broken lines should be lightened and evenly spaced in figure 7. The broken lines should also appear separate from the solid lines of the claim. Please see annotated print alphabet letter A for the unevenly spaced broken lines in figure 7. Better, lighter, clearly defined broken lines are needed in these areas of figure 7.

Annotated Print A:

Figure 7:

FIG. 7

b.) The amended drawing disclosure is objected to under 35 U.S.C. 132 and 37 CFR 1.121 as introducing new matter. The original disclosure does not reasonably convey to a designer of ordinary skill in the art that applicant was in possession of the amended subject matter at the time the application was filed. See *In re Rasmussen*, 650 F.2d 1212, 211 USPQ 323 (CCPA 1981).

Specifically, there is no support in the original disclosure for removing the even dashed broken line oval showing environmental structure on the inside of the footwear in figure 6. Applicant changed the inner solid curve in figure 6 to a broken line to match figure 1. Therefore, it is now understood that the top of the cuff has an outer solid edge, shading and an inner broken oval in both figures 1 and 6. Applicant also extended the shading between the outer solid cuff of the boot and the inner broken line in figure 1. However, applicant deleted the broken line oval shown on the bottom of the insole in figure 6 since it is now understood that this second broken line oval shown in the original figure 6 is not part of the cuff. Although this oval is disclaimed in broken lines, there is no basis to delete it entirely from the drawings.

Please see annotated print alphabet letter B for the broken line oval in figure 6 of the original drawing disclosure, and the missing broken line oval in figure 6 of the amended drawing disclosure.

Annotated Print B:

Figure 6 (original) and figure 6 (amended):

In 35 U.S.C. 132 states that “No amendment shall introduce new matter into the disclosure of the invention.” MPEP 1504.04, I, B states as follows:

An amendment to the disclosure not affecting the claim (such as environment in the title or in broken lines in the drawings), which has no support in the application as originally filed, must be objected to under **35 U.S.C. 132** as lacking support in the application as originally filed and a requirement must be made to cancel the new matter. See **MPEP § 1503.01**, subsection I.

To overcome this objection, applicant may attempt to demonstrate (by means of argument or evidence) that the original disclosure establishes that he or she was in possession of the amended subject matter or by returning the even dashed broken line oval showing environmental structure to the footwear insole in figure 6 of the amended drawing disclosure.

Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for

consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action.

When preparing new drawings in compliance with the requirement therefor, care must be exercised to avoid introduction of anything which could be construed to be new matter prohibited by 35 U.S.C. 132 and 37 CFR 1.121. (15.07).

Conclusion

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO (2) MONTHS** from the mailing date of this letter. Extensions of time may be granted under 37 CFR 1.136 but in no case can any extension carry the date for reply to this Office action beyond the maximum period of **SIX MONTHS** set by statute (35 U.S.C. 133).

If applicant's response to the requirements set forth above is incomplete or includes new matter, the examiner may hold the response non-compliant.

The claimed design is patentable over the references cited. The art of record not relied upon is cited as cumulative art.

Submitted with this Amendment are 3 sheets of replacement drawings to be substituted for Figs. 1-7 of the drawings initially filed in this application.

REMARKS

Applicant herewith responds to the Quayle Action dated May 10, 2021. It is submitted that this Amendment places the application in condition for allowance, or in better form for appeal. No new matter is presented by this Amendment.

The Office has discontinued providing a Patent Term Adjustment (PTA) calculation with the Notice of Allowance.

Section 1(h)(2) of the AIA Technical Corrections Act amended 35 U.S.C. 154(b)(3)(B)(i) to eliminate the requirement that the Office provide a patent term adjustment determination with the notice of allowance. See Revisions to Patent Term Adjustment, 78 Fed. Reg. 19416, 19417 (Apr. 1, 2013). Therefore, the Office is no longer providing an initial patent term adjustment determination with the notice of allowance. The Office will continue to provide a patent term adjustment determination with the Issue Notification Letter that is mailed to applicant approximately three weeks prior to the issue date of the patent, and will include the patent term adjustment on the patent. Any request for reconsideration of the patent term adjustment determination (or reinstatement of patent term adjustment) should follow the process outlined in 37 CFR 1.705.

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

OMB Clearance and PRA Burden Statement for PTOL-85 Part B

The Paperwork Reduction Act (PRA) of 1995 requires Federal agencies to obtain Office of Management and Budget approval before requesting most types of information from the public. When OMB approves an agency request to collect information from the public, OMB (i) provides a valid OMB Control Number and expiration date for the agency to display on the instrument that will be used to collect the information and (ii) requires the agency to inform the public about the OMB Control Number's legal significance in accordance with 5 CFR 1320.5(b).

The information collected by PTOL-85 Part B is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 30 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. **DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.** Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.
