Patent 11,542,554

**JOINT MOTION TO TERMINATE  
PURSUANT TO 35 U.S.C. § 317 AND 37 C.F.R. § 42.74**

**I. STATEMENT OF THE PRECISE RELIEF REQUESTED**

Pursuant to 35 U.S.C. § 317 and 37 C.F.R. § 42.74, Petitioner Bruker Spatial Biology, Inc. (“Bruker”), Patent Owner President and Fellows of Harvard College, and Exclusive Licensee 10x Genomics, Inc. jointly move to terminate the above-referenced *inter partes* review proceeding in light of the parties’ settlement of their disputes regarding the involved patent, U.S. Patent Number 11,542,554. A true and correct copy of the written Settlement Agreement (Exhibit 1087) in connection with this matter has been filed as required by the statute. Given that Bruker is the only Petitioner in this proceeding, the settlement effectively resolves all disputes, and the entire proceeding should be dismissed as to Petitioner, Patent Owner, and Exclusive Licensee.

**II. STATEMENT OF REASONS FOR THE RELIEF REQUESTED**

On May 12, 2025, the parties reached an agreement resolving all disputes regarding the patent involved in this *inter partes* review proceeding, as well as the related district court litigation between the parties. No other petitioner remains in this *inter partes* review proceeding. Accordingly, termination is appropriate because all disputes between the parties regarding U.S. Patent No. 11,542,544 have been resolved.

The Board has not entered a Final Written Decision in this proceeding. Therefore, termination is appropriate.

Pursuant to 35 U.S.C. § 317(b) and 37 C.F.R. § 42.74(b), filed separately as Exhibit 1087 are a true copy of the written Settlement Agreement resolving the dispute in the above-captioned *inter partes* review. The parties are also filing separately herewith a request that this exhibit that constitutes the settlement agreement be treated as business confidential information and be kept separate from the file of this proceeding in accordance with 37 C.F.R. § 42.74(c).

For at least these reasons, the parties submit that termination of this *inter partes* review is appropriate.
