Subject: RE: PTAB P-TACTS issue inquiry [IPR2024-00539]

Scott, all:

Hope all is well by you. When we were filing our POR on Monday, I inadvertently forgot to attach the claim chart to Aaron Striegel's report (EX2427). I've attached it here for Petitioners' consideration. InfoExpress intends to file a "motion to excuse the late filing of the complete version of the exhibit," per the Board's email dated January 14. Can you please let us know by COB tomorrow whether Petitioners plan to oppose such motion?

Thanks,

Andrew

****EXTERNAL EMAIL** - This message originates from outside our Firm. Please consider carefully before responding or clicking links/attachments.**

Counsel,

From the Board –

Regarding Patent Owner's request to amend an incomplete exhibit, Patent Owner is authorized to file, no later than January 21, 2025, a motion to excuse the late filing of the complete version of the exhibit. The motion should show under 37 C.F.R. § 42.5(c)(3) that there is good cause for the late filing or that consideration of the late-filed complete version of the exhibit would be in the interests of justice. If Patent Owner files such a motion, it must serve on Petitioner, no later than the date it files the motion, the version of the exhibit that it seeks to file. Petitioner is authorized to file, no later than January 28, 2025, an opposition to Patent Owner's motion. The motion and opposition should each be limited to no more than five pages.

CAUTION: This email has originated from a source outside of USPTO. **PLEASE CONSIDER THE SOURCE** before responding, clicking on links, or opening attachments.

Good morning:

We filed our patent owner response yesterday in the matter Cisco Systems v. InfoExpress (IPR2024-00539). One of the attorneys made an error in an exhibit and would like to amend it to include an appendix that was inadvertently left off. I was curious as to what our options were for amending an existing exhibit. Any support you can provide would be greatly appreciated.

In addition to this issue, I also had 5 exhibits rejected by the system. I tried changing the file name and file format as well as re-exporting original files and I could not get them into the case file. The system rejection was due to the virus detection system. I'm not sure what is in the document that is flagging it because our virus detection system would flag anything suspect. I did send them to the trials@uspto email address with an explanation of the issue, but I'm not sure how I can get them included in the case file.

Thanks,

Julie Dillner, CEDS
