We are not a patent troll

We are a unique solution to all forms of patent risk

Companies have few viable ways to reduce patent risk. Fighting each assertion as an individual company can cost tens of millions of dollars each year, even for a company with only a moderate patent litigation problem.

RPX offers the only solution to remove patents from circulation before they become costly issues for our clients. No other entity combines the capital strength and intelligence of multiple participants with the expertise of proven patent professionals.

Only RPX has the scale and independence to efficiently acquire patent portfolios pre-litigation and out of active litigation. Only RPX can spread the cost of reducing patent litigation across a large network of participating companies. Only RPX has accurate litigation cost data and a proven actuarial model to provide affordable, comprehensive patent litigation insurance.
