GREENTHREAD, LLC, **Plaintiff,** **v.** **INTEL CORPORATION, DELL INC., AND DELL TECHNOLOGIES INC.,** **Defendants.**	**Case No. 6:22-cv-00105-ADA**

GREENTHREAD'S AMENDED PRELIMINARY INFRINGEMENT CONTENTIONS

Pursuant to the Court's Standing Order Governing Proceedings (OGP) 4.1—Patent Cases, Plaintiff Greenthread, LLC ("Greenthread"), concurrent with the filing of its First Amended Complaint, hereby provides its amended preliminary infringement contentions, including identification of asserted claims, the priority date for each asserted claim, accused products, and accompanying document production. Claim charts are attached as Exhibits A-1 through A-6, B-1 through B-6, C-1 through C-6, D-1, D-2, D-3, and D-6.

Greenthread's disclosures are based on publicly available materials regarding the accused infringing products of Intel Corporation ("Intel"), Dell Inc., and Dell Technologies Inc. (Dell Inc. and Dell Technologies Inc. are collectively "the Dell Defendants" or "Dell," and Intel Corporation and the Dell Defendants are collectively "Defendants"). Greenthread does not yet have access to any of Defendants' discovery materials that may be relevant to its infringement claims and thus relies on publicly available materials. In light of the absence of discovery and reliance on publicly available materials, Greenthread has procured limited physical testing to the extent practicable, of

Greenthread Ex. 2005, p. 2 of 25
MPS v. Greenthread
IPR2024-00553

certain products believed to be representative of, and similar to, the accused infringing products in pertinent respects. Greenthread explicitly reserves the right to supplement or alter its disclosures herein, as a matter of right, as permitted by the Court, based on the Court's claim constructions, based on additional information obtained through formal discovery or other means, and/or based on other circumstances.

I. ASSERTED CLAIMS AND PRIORITY DATE

Based on the information presently available to it, Greenthread identifies the asserted claims of each asserted patent that Greenthread alleges is infringed by Defendants, and the priority date of those claims, as set forth in the table below. Based on the information presently available to it, Greenthread alleges that all asserted claims of each particular asserted patent are entitled to the same priority date.

Patent	Asserted Claims	Priority Date of Asserted Claims
10,510,842 ("the '842 patent")	1, 2, 4-10, 12-18	September 3, 2004
10,734,481 ("the '481 patent")	1-9, 13, 15-20, 22-27, 31-36	September 3, 2004
11,121,222 ("the '222 patent")	1-9, 13, 15- 21, 23-28, 32-42, 44	September 3, 2004
8,421,195 ("the '195 patent")	1-3, 5-6	September 3, 2004
9,190,502 ("the '502 patent")	7-9, 11	September 3, 2004
11,316,014 (the "'014 Patent")	1-9, 13, 15-21, 23-28	September 3, 2004

Greenthread notes that the claims identified in the table reflect the asserted claims in this case, and the absence of a claim from the list does not imply that the claim is not infringed. Greenthread explicitly reserves the right to supplement or alter its identification of asserted claims and priority dates, as a matter of right, as permitted by the Court, based on any further claim

Greenthread Ex. 2005, p. 3 of 25

constructions, additional information obtained through formal discovery or other means, and/or based on other circumstances.

II. ACCUSED PRODUCTS

Based upon information presently available to it, Greenthread asserts infringement by the accused products set forth below in this section. For each accused product identified below, Greenthread's contentions apply to the accused product and any other similar past, present, or future products, as well as systems incorporating the accused products or other products with the same or substantially similar features.

A. Intel Accused Products

As described further in Exhibits A-1 through A-6 and Exhibits B-1 through B-6 below, Intel's CPU products and Intel's flash memory products infringe one or more asserted claims of each of the asserted patents.

Intel Accused CPUs include all CPUs designed or manufactured (in whole or in part) by Intel, that have the same or similar structures, features, or functionalities as the exemplary Intel Core i7 11800H CPU shown in Exhibits A-1 through A-6. As shown in Exhibits A-1 through A-6, Intel Accused CPUs each infringe one or more claims of U.S. Patent Nos. 8,421,195 (claims 1-3, 5-6), 9,190,502 (claims 7-9), 10,510,842 (claims 1-2, 4-10, 12-18), 10,734,481 (claims 1-9, 13, 15, 17-18, 20, 22-27, 31-32, 34-35), 11,121,222 (claims 1-9, 13, 15, 17-18, 20-21, 23-28, 32-33, 35-36, 38-42, 44), 11,316,014 (claims 1-9, 13, 15, 17-18, 20-21, 23-28). Intel Accused CPUs include the 12th generation semiconductor products labeled as "Alder Lake," the 11th generation semiconductor products labeled as "Tiger Lake," and the 10th generation semiconductor products labeled as "Comet Lake." The following listing of Intel 10th, 11th, and 12th generation

semiconductor products is derived from publicly available information at Intel's website, as noted in Exhibit G to Greenthread's Complaint (Dkt. 1-7).

4. Dell-Sony Accused Products

Dell-Sony Accused Products include all Dell Products containing or comprising image sensors designed or manufactured (in whole or in part) by Sony Corporation, Sony Semiconductor Solutions, Sony Global Manufacturing & Operations, Sony Electronics Inc., Sony Corporation of America or their affiliates ("Sony"), that have the same or similar structures, features, or functionalities as the exemplary product shown in Exhibits D-1, D-2, D-3 and D-6, regardless of

how such products are branded. As described in Exhibits D-1, D-2, D-3, and D-6, Dell-Sony Accused Products each infringe one or more claims of U.S. Patent Nos. 10,510,842 (claims 1-2, 5, 7-10, 13, 15-18), 10,734,481 (claims 1-2, 4, 6-9, 13, 19-20, 22, 24, 26-27, 31, 36), 11,121,222 (claims 1-2, 4, 6-9, 13, 19-21, 23, 25, 27-28, 32, 37-39, 41), 11,316,014 (claims 1-2, 4, 6-9, 13, 19-21, 23, 25, 27-28). Exemplary Dell-Sony Accused Products are listed below. All images are taken from dell.com.

Upon information and belief, Dell also incorporates further Sony image sensors into other Dell Products, such as webcams that Dell integrates into Dell laptops, desktops, and other computing devices. Greenthread reserves the right to amend its list of Dell-Sony Accused Products, including based on information learned in discovery.

5. Additional Dell Accused Products

Upon information and belief, the following Dell products infringe one or more asserted claims of the asserted patents through their incorporation of dynamic random access memories (DRAMs), flash memory devices (e.g., in solid-state drives) and image sensors that meet the limitations of one or more asserted claims. The identities of such DRAMs, flash memory devices,

and image sensors, their specifications, and their manufacturers and/or suppliers (if other than Dell) are in the possession of the Dell Defendants and are expected to be learned over the course of this litigation, e.g., obtained through discovery. More complete information about the Accused Products is in the possession of Defendants and is expected to be obtained through discovery. Greenthread explicitly reserves the right to supplement or alter its preliminary identification of accused products, as a matter of right, as permitted by the Court, based on the Court's claim constructions, based on additional information obtained through formal discovery or other means, and/or based on other circumstances.

III. CLAIM CHARTS FOR LITERAL INFRINGEMENT

Based upon information presently available to it, Greenthread's preliminary infringement claim charts are provided as attached Exhibits A-1 through A-6, B-1 through B-6, C-1 through C-6, and D-1, D-2, D-3, and D-6. In each claim chart, the discussion for dependent claims should be read as incorporating by reference the discussion corresponding to the claims from which they depend. In addition, the discussion for each row in the chart should be read within the context of the discussion for the entire claim to which that row pertains. Where the charts incorporate excerpts of particular documents, the reference to those excerpts is exemplary and not to the exclusion of any other excerpt or version of the document or any versions of related documents.

These infringement claim charts are based upon Greenthread's investigation to date. More complete information about the Accused Products is in the possession of Defendants and is expected to be obtained through discovery. Greenthread explicitly reserves the right to supplement or alter its preliminary infringement claim charts, as a matter of right, as permitted by the Court, based on the Court's claim constructions, based on additional information obtained through formal discovery or other means, and/or based on other circumstances.

Greenthread Ex. 2005, p. 21 of 25
MPS v. Greenthread
IPR2024-00553

IV. DOCTRINE OF EQUIVALENTS

Unless otherwise noted in the claim charts, Greenthread alleges that Defendants infringe literally all asserted claims. To the extent any differences are alleged to exist between the asserted claims and Defendants' Accused Products, such differences are insubstantial and Defendants' Accused Products perform substantially the same function, in substantially the same way, to yield substantially the same result, and therefore Defendants infringe under the doctrine of equivalents.

Greenthread explicitly reserves the right to supplement or alter its disclosure concerning the doctrine of equivalents, as a matter of right, as permitted by the Court, based on the Court's claim constructions, based on additional information obtained through formal discovery or other means, and/or based on other circumstances. In the event that a claim limitation is deemed to be missing under a literal infringement analysis, Greenthread also reserves the right to demonstrate the presence of a substantial equivalent of such limitation and to pursue infringement under the doctrine of equivalents.

V. DOCUMENT PRODUCTION

Accompanying these amended preliminary infringement contentions, Greenthread is producing documents pursuant to § II, page 2 of the Court's Standing Order Governing Proceedings (OGP) 4.1—Patent Cases dated April 14, 2022 in the production range GREENTHREAD-WDTX-000001-002065, including (1) documents evidencing conception and reduction to practice for each claimed invention at GREENTHREAD-WDTX-000349-000367, GREENTHREAD-WDTX-000741-000759, GREENTHREAD-WDTX-001061-001095, GREENTHREAD-WDTX-001249-001283, GREENTHREAD-WDTX-001378-001416, GREENTHREAD-WDTX-001727-001857, GREENTHREAD-WDTX-002026-002051; and (2) a copy of the file history for each patent in suit at the following:
