Subject: [PWE3] New version of: draft-dolganow-pwe3-ospf-ms-pw-ext

All,

The new version of the draft is available (<http://www3.ietf.org/proceedings/staging/draft-dolganow-pwe3-ospf-ms-pw-ext-02.txt>). The changes address points raised in Vancouver that needed extra text (mainly around protecting IGP) so this document can become a WG document as requested during the last meeting. We would like to ask that the new version becomes a WG document.

Andrew
