Subject: [jvt-experts] Special position + MC memory analysis adhoc group
Attachments: Special Position_v4.doc; MC memory analysis_v2.doc; footer.txt

Dear Experts,

Attached files provide the final Test conditions for Special Position and MC Memory Analysis experiments. Please take a good look at these and let me know if there are any errors or I missed something.

I still have not gotten any confirmation from TI (Minhua) and Conexant (Eric) that they will conduct the Special Position experiments. Mitsubishi has confirmed that they will conduct the experiments. Is there any other company that would like to do the experiments?

Thanks.

With regards,
Ajay
