Subject: [jvt-experts] RE: Software implementation schedule

The starting point for B picture direct mode experiments, JVT-D040 and parts of JVT-D155, seems to be missing from the list, and I think it belongs early so that the B picture ad hoc group has adequate time to conduct experiments before the October meeting. (JVT-D041 might as well be done at the same time, as it looks like a 2-minute change.)

I would like to see JVT-D145 High-level syntax higher on the list.

I think that JVT-C166, JVT-C116, JVT-B055, and JVT-B022 should all be moved later on the list, as they don't have an impact on normative compression efficiency, and hence on ad hoc experiments for decisions for the October meeting.

Jill

The use of the jvt-experts list is intended only for the video coding standardization work conducted by the Joint Video Team (JVT) of ISO/IEC JTC1/SC29/WG11 (MPEG) and ITU-T SG16 Q.6 (VCEG).
