Subject: RE: [jvt-experts] RE: Software implementation schedule

Karsten, experts,

Sorry for commenting late, I just returned from my vacation.

I've been marked as the implementor of "high-level syntax" (JVT-D145) obviously because I acted as the chair of the breakout group that produced the document. Unfortunately, I lack the time, the skills, and the knowledge how to implement JVT-D145 into the software. Thus, I wish somebody else volunteered to take the position of implementing JVT-D145.

Best Regards,
Miska
