Subject: [jvt-experts] Sequence parameter set and the Picture Parameter set
Attachments: Wipro_Disclaimer.txt; footer.txt

Hi,
I have a doubt in regard to the Sequence parameter set and the Picture Parameter set.
As per the H.264 FCD standards, there is an upper limit of 16 Sequence parameter sets and 64 Picture Parameter sets.
Could you please clarify for these upper limits. Thanks.
Have a Nice Day !
Warm regards,
Arjun.R
