Re: *Proxense LLC v. Microsoft Corp.*, Case No. 6:23-cv-00319-ADA (W.D. Tex.)

Dear Counsel:

Microsoft Corporation ("Microsoft") has filed an *inter partes* review (IPR) petition (IPR2024-00573) with the Patent Trial and Appeal Board (PTAB) to address the validity of claims 1, 5-6, 8-11, and 13-14 of U.S. Patent No. 8,646,042 ("**the '042 Patent**"). The tables in attached Appendix A list all the grounds and references asserted in IPR2024-00573 against the challenged claims.

I write to inform you that Microsoft hereby stipulates that if the PTAB institutes IPR2024-00573, Microsoft agrees not to pursue any grounds raised in the petition, or any grounds Microsoft could have reasonably raised in the petition, against all claims of the '042 Patent in this District Court proceeding. *Sotera Wireless, Inc. v. Masimo Corp.*, Case IPR2020-01019, Paper 12 (PTAB Dec. 1, 2020). For the sake of clarity and to avoid any doubt, if the PTAB declines to institute IPR2024-00573, Microsoft reserves the right to assert any grounds of invalidity against the '042 Patent in the District Court proceedings.

Sincerely,

Betty Chen
Attorney for Microsoft
