16 A. I'm doing fine. How are you? Thank you.

17 Q. Great.

18 Can you please state your full name for the

22 A. No.

23 Q. Okay. Where are you currently employed?

24 A. I retired.

25 Q. Okay. What year did you begin working for

2 A. The year 2001.

3 Q. And what was your role there?

4 A. I was software developer working on software
5 development, designing, developing network access
6 solutions.

7 Q. What were some of your duties as a software

12 Q. Did you have a leadership role at
13 InfoExpress?

14 A. Yes.

15 Q. What was your title?

16 A. I don't remember.

17 Q. How many people worked for you at
18 InfoExpress?

21 Q. Did you have -- was there someone at
22 InfoExpress that you directly reported to?

23 A. Mr. Stacey Lum.

24 Q. Anybody else?

25 A. No.

14 Q. Do you remember when you stopped working on
15 the Gatekeeper project?

16 A. 2001.

17 Q. So I believe you stated earlier that you
18 began working at InfoExpress in 2001, correct?

19 A. I don't understand.

20 Could you please repeat the question?

21 Q. I mean, earlier I asked what year did you
22 begin working at InfoExpress and you stated 2001.

23 Do you remember that?

24 A. 2001? I don't remember.

25 ///

1 (Exhibit 2429 was previously marked and
2 referenced for identification.)

3 BY MR. BORDER:

4 Q. Why don't we do this: I believe you have in
5 front of you Exhibit 2429. It is titled:
6 "Declaration of Yuhshiw Alice Lee."

7 Do you see that?

8 A. Yes.

9 Q. And this is the declaration you submitted in
10 the proceedings listed on the face of the patent, on
11 the face of the declaration, and stated there are
12 four different patents.

13 Do you see that?

14 A. Yes.

15 Q. And do you recognize these patents as
16 patents that you're a co-inventor of?

17 A. Yes.

18 Q. And if you could turn to paragraph No. 3,
19 please.

20 A. Okay.

21 Q. It says you joined InfoExpress around 2001.

22 A. Right.

23 Q. And so earlier you stated that you began
24 working on Gatekeeper in 2001 as well, correct?

25 A. I don't remember exactly what time in 2001

1 or 2000.

2 Q. But it was 2001?

3 A. I don't remember.

4 Q. Okay. And do you remember when you stopped
5 working on Gatekeeper?

6 A. I don't remember.

7 Q. Did you work on any other projects other
8 than Gatekeeper?

9 A. Are you asking the whole years when I worked
10 at InfoExpress?

11 Q. Sure.

12 A. In addition to Gatekeeper, I also worked --
13 after Gatekeeper, I worked on other projects after
14 Gatekeeper.

15 Q. Okay. When did you leave InfoExpress?

16 A. '15, 2015.

17 Q. Do you currently have a financial interest

25 A. No.

1 Q. Okay. Were you offered any compensation or

11 A. No.

12 Q. Who first reached out to you about providing

14 A. This declaration from Brian, my attorney.

15 Q. Were you asked to search for and provide any
16 documents?

17 A. No.

18 Q. With respect to the patents that you have
19 identified on the face of your declaration in
20 paragraph 2, do you believe there are any other
21 co-inventors of these patents other than you and
22 Mr. Lum?

23 MR. LANDRY: Objection. Beyond the scope.

24 THE WITNESS: No.

25 ///

1 (Exhibit 1001 was previously marked and
2 referenced for identification.)

3 BY MR. BORDER:

4 Q. I had dropped into the Chat the '460 patent.
5 It's labeled Exhibit 1001.

6 If you still have access to that, can you
7 please call that up? And let me know when you have
8 it.

9 MR. LANDRY: I am not sure that I have it.
10 Can you drop it again?

11 MR. BORDER: Yes, I can do that. I just
12 dropped it in the Chat again.

13 MR. LANDRY: Perfect. Now I see it.

14 THE WITNESS: I got it.

15 BY MR. BORDER:

16 Q. And, Ms. Lee, you're a named inventor on
17 this patent, correct?

18 A. Yes.

19 Q. And you're also a named inventor on the
20 other patents that your declaration is directed to,
21 correct?

22 A. Yes.

23 Q. Let's turn to what is called the background
24 of this patent, which you will find on page 13.

25 A. Here?

1 Q. I guess, let me ask you: Do you understand
2 what the background section of a patent is about?

3 MR. LANDRY: Objection. Beyond the scope.

4 THE WITNESS: The background information
5 about the network security and some description
6 regarding different approaches for network access
7 control.

8 BY MR. BORDER:

9 Q. Okay. And these approaches on network
10 access control identified in the background describe
11 prior ways of doing network access control; is that
12 right?

13 MR. LANDRY: Objection. Beyond the scope.

14 THE WITNESS: At least from the -- there is
15 a prior art and then the new approaches.

16 BY MR. BORDER:

17 Q. So the new approach, I guess staying on that
18 page, would be described in the summary of the
19 invention?

20 MR. LANDRY: Objection. Beyond the scope.

21 THE WITNESS: Yes.

22 BY MR. BORDER:

23 Q. And focusing on the background here in
24 columns one and two of the '460 patent, would you
25 agree that authentication of a user by the use of a

1 network switch to grant access to a network was known
2 before the '460 patent?

3 MR. LANDRY: Objection. Beyond the scope.

4 THE WITNESS: I don't know.

5 BY MR. BORDER:

6 Q. Have you read this patent?

7 A. Yes.

8 MR. LANDRY: Objection. Beyond the scope.

9 BY MR. BORDER:

10 Q. When did you read this patent?

11 A. When I sign the paper and work on this.

12 THE COURT REPORTER: When I saw the paper?

13 THE WITNESS: When I sign the patent.

14 BY MR. BORDER:

15 Q. I see.

16 So the first time you saw this patent was
17 when you were still an employee of InfoExpress; is
18 that right?

19 A. Yes.

20 Q. Okay. Now, before the '460 patent, had
21 InfoExpress already developed a Gatekeeper product?

22 MR. LANDRY: Objection. Beyond the scope.

23 THE WITNESS: We had spec back to 2002.

24 Sorry. Could you ask it again?

25 ///

1 BY MR. BORDER:

2 Q. I think you said we had spec in 2002?

3 A. Yeah.

4 Q. I think you had that right.

5 A. Yes.

6 Q. Let's take another look at your declaration.
7 If you could turn to paragraph 7, please.

8 Paragraph 7 states: "In [REDACTED], our
9 InfoExpress team and I were considering the potential
10 advantages of implementing policy enforcement and
11 authentication via a gatekeeper over 802.1X and VLAN
12 assignment."

13 Do you see that?

14 A. Yes.

15 Q. Do you believe your invention was
16 implementing policy, enforcement, and authentication
17 via Gatekeeper?

18 MR. LANDRY: Objection. Beyond the scope.

19 THE WITNESS: I don't understand the
20 question.

21 Could you repeat it again?

22 BY MR. BORDER:

23 Q. Sure.

24 Why were you considering the potential
25 advantages of implementing policy enforcement and

1 authentication via a Gatekeeper over 802.1X and VLAN
2 assignment?

3 MR. LANDRY: Objection. Beyond the scope.

4 THE WITNESS: At that time, InfoExpress
5 already had solution for policy enforcement for
6 remote access, and this is the enhancement of that
7 product to policy enforcement over 802.1X and VLAN.

8 BY MR. BORDER:

9 Q. Okay. So the enhancement that you worked on
10 as part of the Gatekeeper project was policy
11 enforcement over 802.1X and VLAN?

12 MR. LANDRY: Objection. Beyond the scope.

13 THE WITNESS: I don't remember the first --
14 I was also involved in the first version of remote
15 access.

16 BY MR. BORDER:

17 Q. And that first version of remote access had
18 policy enforcement?

19 MR. LANDRY: Objection. Beyond the scope.

20 THE WITNESS: Because of a different type,
21 network type. So the first version is the, like,
22 dial-up, and the LAN-based policy enforcement was
23 developed.

24 BY MR. BORDER:

25 Q. And just to be clear, the dial-up version of

1 the product you worked on at InfoExpress had policy
2 enforcement, correct?

3 MR. LANDRY: Objection. Beyond the scope.

4 THE WITNESS: I don't remember.

5 BY MR. BORDER:

6 Q. Did the dial-up version have authentication?

7 MR. LANDRY: Objection. Beyond the scope.

8 THE WITNESS: I don't remember.

9 (Exhibit 2011 was previously marked and
10 referenced for identification.)

11 BY MR. BORDER:

12 Q. I dropped what has been previously marked as
13 Exhibit 2011 into the Chat, if you could please open
14 that up.

15 Let me know when you have done that.

16 A. Okay. I got it.

17 Q. Do you recognize this document?

18 A. Just a minute. Yes.

19 Q. You didn't write this document in its
20 entirety, did you?

21 A. I drafted this spec at the instruction and
22 direction of Mr. Lum.

23 Q. You drafted the entire document?

24 A. The initial one with the instruction and
25 direction of Mr. Lum.

1 Q. Did anyone else contribute to the drafting
2 of this document?

3 A. It's from some of the property from the
4 email exchange information within the team member.

5 Q. I'm not sure, perhaps you didn't understand
6 my question.

7 I'm just wondering if anyone else helped you
8 draft this document?

9 A. Oh, I drafted this document.

10 Q. By yourself?

11 A. Yeah.

12 Q. Okay. Your name is nowhere in this
13 document, correct?

14 A. This document, I remember that from the
15 exhibit. There is some information about the author.

16 Q. Right. But your name doesn't appear
17 anywhere in this document, correct?

18 A. Correct.

19 Q. And Stacey Lum's name doesn't appear
20 anywhere in this document, correct?

21 A. Correct.

22 Q. You state in your declaration that the
23 software developer authorship tag in the metadata in
24 this document is attributable to you.

25 A. Yes.

1 Q. You weren't the only software developer at
2 InfoExpress, were you?

3 A. I don't know.

4 Q. You don't know whether there were other
5 software developers at InfoExpress?

6 A. I don't know. Just from the screenshot,
7 the -- is made with my name and the software
8 developer associated with me.

9 Q. You mentioned there were other people on
10 your team at InfoExpress other than Mr. Lum, correct?

11 A. Correct.

12 Q. And were those other people on your team
13 software developers?

14 A. I don't know.

15 Q. All right. I am dropping into the Chat an
16 exhibit that has been previously marked as 2444. Let
17 me know when you have had a chance to open that up.

18 A. I got it.

19 Q. Okay. Do you recognize this document?

20 A. Yes.

21 Q. According to your declaration, you provided
22 this document to show that the software developer who
23 authored the Exhibit 2011 was you, correct?

24 A. Yes.

25 Q. And so according to your declaration,

1 because you made comments in this document in redline
2 beginning with "Alice," and those comments were made
3 by software developer in the metadata, your testimony
4 is that you were the software developer author at
5 that time, correct?

6 A. Correct.

7 Q. And so if we can turn to page 3. And if you
8 look down at the bottom, it begins in redline;
9 "Alice," colon, and then there is some statements
10 after that.

11 Do you see that?

12 A. Yes.

13 Q. And then now, if you turn to page 28 of this
14 document, and it shows that Edit No. 9 was by a
15 software developer.

16 Do you see that, at 11:14 a.m.?

17 A. Yes.

18 Q. Well, let's turn to page 8 of this document.
19 And do you see an entry next to the number
20 18?

21 A. Can you please repeat again?

22 Q. Sure.

23 A. Page 8?

24 Q. If you turn to page 8, and there is on the
25 left-hand side of the document, there are documents

1 there, including the number 18.

2 Do you see that?

3 A. Yes.

4 Q. Do you see it says after 18, there is
5 "Cary," colon, and then there is a statement in red
6 line. Do you see that?

7 A. Yes.

8 Q. Who is Cary?

9 A. Coworker.

10 Q. Then, if we go back to the change log -- and
11 this is, again, on page 28 -- and do you see under
12 Item No. 18 it says: "Software Developer"?

13 A. Say it again. Page 28? Which line?

14 Q. Line 18.

15 And do you see that it describes the track
16 change No. 18 was also by a software developer? Do
17 you see that?

18 A. Yes.

19 Q. And you said Cary was a coworker?

20 A. We go back to -- what number, the 18?
21 Page 8?

22 Q. I'm sorry. My question was: And you stated
23 earlier that Cary was a coworker?

24 A. Page 8 or?

25 Q. I will strike that question.

1 Let's go back to Exhibit 2011, please.

2 A. Because the "Cary," colon, was that added by
3 me and I put the name there? It means Cary, that
4 comment from Cary, right?

5 Q. I am sorry. The only question I asked was
6 whether Cary was a coworker, and I believe you stated
7 that he or she was.

8 A. Cary's title was a coworker. It doesn't
9 mean he changed the line.

10 Can we go back? I am sorry. You said 2444?

11 Q. No. We are going to go to Exhibit 2011,
12 please.

13 A. 2011. Okay.

14 Q. Let's go to page 7.

15 A. Yes.

16 Q. And the top of page 7, there is a Figure 2.
17 Do you see that?

18 A. Yes.

19 Q. Do you recognize this figure?

20 A. Yes.

21 Q. And so this figure shows that data from
22 CGAgents on the left residing on the access device
23 passes through the access point to the CGS.

24 Do you see that?

25 A. Yes.

1 Q. And the CGS performs policy enforcement and
2 authentication?

3 MR. LANDRY: Objection. Beyond the scope.

4 THE WITNESS: CGS, if you look at the
5 Gatekeeper model, it describes more detail regarding
6 that, what is the -- CGS will handle policy
7 enforcement and some of the detailed information as
8 to this document.

9 (Exhibit 2342 was previously marked and
10 referenced for identification.)

11 BY MR. BORDER:

12 Q. I'm going to put another document into the
13 Chat. This is Exhibit 2342.

14 A. Bear with me. Do you mind if I log out and
15 log in again? I might have lost the connection.

16 Q. You can't access 2342?

17 A. No. The Zoom meeting for some reason --

18 MR. LANDRY: Do you mind if I just go around
19 and see --

20 MR. BORDER: No.

21 THE WITNESS: Thank you, Brian. Thank you
22 so much.

23 Scott, you mentioned 2342?

24 BY MR. BORDER:
