

FEEDBACK	DATE
I love the money clip. Like how my ridge wallet comes with extra screws and screwdriver. Well made and sturdy. Thanks.	2025-01-08T20:22:07.818Z
Wallet came with the cash strap and it looked cool and streamlined but I rarely ever carry cash, so I ordered the clip because I could utilize it better than the strap. Easy to disassemble and install and it looks completely awesome. Coolest wallet setup I've ever had	2025-01-04T21:54:18.807Z
Sturdy and well made	2025-01-02T13:45:50.800Z
I like to personalize my Ridge stuff (I buy too much of as that statement probably shows, lol) so I bought this in silver aluminum to put on my carbon fiber 3k wallet and changed the screws to silver (on that side, the quick draw I added on the other side prevented using them there; see that review for explanation). But the problem I generally have with clips on wallets (including ones that came with earlier Ridge wallets I bought) is that they generally don't hold strong enough for my taste. They clearly fixed that! This one is scored inward to the point of feeling it when installing it. I hope that is how all Ridge clips are now because I am ordering more to replace my old ones. Was not expensive at all either.	2025-01-01T05:58:30.567Z
I have had my Ridge wallet for 2 years now love it , the money clip works great (I am over 50 and actually still carry money) recently one of the clips that attaches it to the wallet broke. I contacted Ridge warranty department and a few clicks later and my new clip was sent, I had the tool that was sent in original purchase to fix.	2024-12-25T12:56:00.406Z
After 10 years my money clip finally snapped. I notice that the clip has been improved!	2024-12-01T01:18:05.384Z
Great money clip, thank you!	2024-11-12T21:53:11.545Z
Money clip works well. Low profile. Tight hold on cash.	2024-11-05T17:19:10.646Z
Made a repair to my Ridge wallet and upgraded to the money clip. Works even better than expected and isn't bulky at all.	2024-09-29T20:49:55.508Z
Awesome works great. Keeps a tight grip on the moolah	2024-09-24T02:06:17.796Z
Love my new money clip!! Wasn't a big fan of the cash strap. Install was super easy.	2024-09-11T21:01:07.961Z
Does a good job holding my money.	2024-09-11T19:51:06.154Z
The Ridge money clip is an easy way to organize credit cards & cash.	2024-08-23T04:47:35.111Z
I loved this clip and this company. This clip is rugged, durable and well built.	2024-08-11T20:59:56.465Z
It works well. Good tension.	2024-06-15T21:15:54.936Z
Very nice and not hard to install, would highly recommend this!!!!	2024-06-15T19:23:04.274Z
Love it, easy to install.	2024-06-06T21:32:28.803Z
When I first saw this, I didn't expect it to hold in place properly with how it is held but it works incredibly well. I also love the look of it	2024-06-02T22:53:31.728Z

Clip is an awesome upgrade to my wallet. It has the right amount of retention to keep everything in place. Would definitely recommend this upgrade. Super easy to change out the band to the clip	2024-05-30T00:42:01.757Z
The money clip is a perfect fit! I'm very happy with my purchase!	2024-05-12T21:12:02.546Z
WORKS GREAT, HOLDS MY CASH!	2024-05-03T03:15:32.261Z
I love the money clip. It's very secure.	2024-04-28T21:33:51.831Z
Love my new gunmetal grey wallet. My first one, the money clip failed after about 15 years. You guys were awesome to replace it with a new one with the money band. Even better than the clip. Quality product and service. Thanks.	2024-04-28T01:56:19.236Z
Added a second clip to my Ridge wallet to use one as a money clip and the other as a pocket clip. Works great!	2024-04-10T19:38:02.730Z
I am happy that i added the money clip It seem to hold my cash more securely than the band	2024-04-06T23:19:30.502Z
First and foremost, I can see it. It holds all my cards perfectly and the money clip keeps the cash securely in place. Its perfect for me!	2024-04-02T21:36:48.495Z
Easy to install and holds more than money!	2024-03-31T18:43:56.870Z
Perfection, need I say more. The first Generation needed double sided tape to secure and a heat gun to separate for AirTag battery replacements. They knocked it out the park with this money Clip not needed any of that; just the hex screw driver and about 15 seconds. Thanks Ridge! I happy to be a lifelong customer and getting access to exclusive products early.	2024-03-31T12:21:36.711Z
Great it's about time a new wallet that fits in your pocket not bulky the money clip is strong and secure it's also a way so your cards don't bend and lightweight	2024-03-26T12:09:39.175Z
I've had many wallets in my life and this one is hands down the best! I didn't know I had all these cards in my wallet to begin with. The elastic tension is amazing, I have had as little as two cards in there and it was secure as if I had 12 cards in there. The money clip is very sturdy and will hold even a single bill, I had quite a few bills in there and it did just fine. I love how compact it is, I almost forget which pocket I have it in. Highly recommend if you are looking for a compact wallet.	2024-03-20T19:09:26.540Z
Yes. Not only can it hold money, but it can cradle your dreams gentler than your father did when you were a baby. It'll hold your expectations higher than the debt you incurred from the divorce. Scholars believe a Ridge money clip was used to hold Jesus comfortably to the cross, undermining the whole 'sacrifice' thing.	2024-03-09T03:10:25.003Z
I really like the clip and I combined it with the cash strap and it works great.	2024-02-29T20:12:02.058Z
Honestly this has been one of the best clips I've had on any wallet firm but still reliably flexible.	2024-02-10T21:46:05.449Z

I received the Ridge Wallet for Christmas and immediately ordered the money clip, it was super easy to install and works perfectly!!!	2024-02-10T21:13:42.941Z
Needed to replace my money clip. This was easy to install.	2024-02-10T18:22:14.972Z
The money clip works well and is easy to install.	2024-02-09T17:11:52.579Z
It is a very handy addition to the wallet. Keeps things compact while allowing easy access to cash!	2024-02-09T15:47:20.636Z
My main concern was how tight it would hold my money. Even with single bills they stay in place. Iâ€™m happy with it.	2024-02-06T15:56:32.416Z
The clip is awesome. Definitely carries the pressure to hold my funds. I wish Iâ€™d gotten the same color as my wallet. I like this much better than the strap.	2024-02-02T14:15:48.810Z
So far works really good. It holds the money in place very well	2024-01-29T16:35:50.309Z
This money clip makes my Ridge wallet a better unit. I carry this one when I am working; it makes obtaining cash faster.	2024-01-28T22:29:07.772Z
Low profile and very strong. Cash doesn't move	2024-01-25T21:24:54.565Z
Great wallet, small and fits well in my front pocket. Enjoy the quick access to my cards. Money clip has a super tight hold.	2024-01-22T22:30:49.100Z
It keep my money right in place,,	2024-01-21T17:22:52.588Z
Easy install and holds bills securely, no worries about losing any bills!	2024-01-21T04:48:04.985Z
The clip holds my money securely to my Ridge wallet and is very easy to replace.	2024-01-15T22:01:40.081Z
It is an amazing wallet is able to comfortably hold all my cards and the money clip is easy to get money in and out of while being secure enough for the money not to fall out while you're moving around.	2024-01-15T09:01:54.648Z
Love it, light weight, great color, secure money clip I couldn't be happier with this product	2023-11-20T20:08:14.261Z
The wording process was fast easy and no issues, the wallet came in perfect condition with a vibrant deep color exactly as expected. The money clip was tight and the cards fit perfectly being held securely but easy to access	2023-11-17T02:37:04.068Z
I really like the color and love the slim aspect of the wallet. It holds my cards tight and I got the money clip and that is sturdy and tight also. Great purchase.	2023-11-10T22:29:24.577Z
The money clip is perfect in every way. Complements the ridgewallet so well and holds cash nicely!	2023-10-26T22:05:07.694Z
The wallet looks great, money clip is extremely secure, shipping was speedy BUT....aside from aesthetics, cards are kind of a pain to put in, pulling out a card ain't as smooth as it seems, money strap is useless way to loose, no bottle opener, sitting on it aint comfy and it's alright compared to a wallet that rhymes with Mango!	2023-08-15T20:37:43.092Z

Was not sure about this, but after receiving it this is great! Love the "base camp orange", Eric protection really works (tried to tap pay at several locations) money clip it still tight. Expect this to last for quite some time.	2023-08-08T03:39:00.931Z
Excellent way of keeping money handy and secure	2023-05-15T13:57:59.934Z
This is the best clip I've used to date. It's nice and tight and takes a beating!	2023-03-21T12:35:19.363Z
Best money clip best customer service best wallet period	2023-03-06T22:05:41.507Z
The money clip is top notch	2023-01-25T19:01:19.247Z
Love this money clip whether I use it to hold money or use it to show off my Ridge wallet by wearing it on my belt via the Money Clip. I knew I chose correctly with this accessory and I love that you can wear it on the belt with this	2023-01-20T06:34:15.103Z
Excellent option for a men's wallet. The metal finish looks great, and it's nice not having to carry a bulky wallet in my pocket. The money clips holds my cash securely. It easily holds 8-10 cards, and I am confident that it will last for several years.	2023-01-05T16:07:35.308Z
The money clip is a significant improvement for my Ridge. Its very springy and feels like it will hold tight (but not too tight) over time.	2022-12-11T16:05:24.268Z
Adding the money clip to my Ridge wallet made it perfect. My cash is held tight and I can add receipts without feeling they may fall off.	2022-11-08T15:28:12.543Z
Adding the money clip to my Ridge wallet made it perfect. My cash is held tight and I can add receipts without feeling they may fall off.	2022-11-08T15:28:12.543Z
I bought it after I tried the elastic band for a while. The clip is sturdy, and does what I expected. 5 stars!	2022-10-21T00:07:56.633Z
So I've had it for over a month now. I've gotten used to carrying less; only the essentials. It fits in the small front left (magazine) pocket of my Proper tactical pants., which I wear daily. One thing that would make it perfect would be the ability to install the money clip on the opposite edge of the wallet. That would give somewhere to grip with fingertips, allowing contents to be pushed out with one hand. Other than that it's great. Money will NOT fall out of the strap OR the clip. I've tried both and it's very secure. So are the cards. I also use the aluminum cavity tray. I carry seven cards and the tray. Nothing falls out. Even if you shake it. I've read reviews that say contents were not secure. I call bull\$!;&. Whoever says that probably thinks the Yugo was a good car. Bottom line - if you're thinking of a permanent minimalist wallet, don't buy the cheap knockoffs. Buy The Ridge. It's well worth the money spent.	2022-10-16T20:51:18.159Z
This is the first time that I have used the money clip and I'm impressed with the performance.	2022-07-26T16:40:00.635Z

I love how sleek it is and that it isn't bulky like most traditional wallets are. The easy access to your cards just by sliding them up makes this a great purchase and I love both the money clip and strap included so cash stays secure. I am in love with this product and would definitely recommend this to anyone.	2022-06-11T17:59:30.538Z
Love this clean and Sharpe looking money clip.	2022-05-07T18:40:33.192Z
It's a great wallet. I love the way it feels, very secure. I use the money clip and that is perfect. It's strong enough so the money doesn't fall out but it's still easy to slide the money in	2022-05-01T17:18:12.975Z
Even though I enjoy the strap, I love the money clip. Easy to install and add a great look and functionality to my wallet.	2022-04-25T15:16:58.068Z
I purchased my Ridge with the Cash Strap. It holds bills securely. I felt it was a little cumbersome getting the bills under the strap so I ordered the Money Clip and strap. It too holds bills securely. Putting bills under the Money Clip is easier for me. So I'd have to say it's a matter of personal preference. Both work great but for me it's the Money Clip.	2022-04-09T19:51:04.415Z
Great wallet. The wallet and money clip keep everything safe and secure. It is so thin, I have thought that I lost it or left it at home. You will not have buyers regret. Get your today.	2022-03-19T23:43:01.964Z
The clip is a nice add on. Should have ordered it from the start.	2022-02-13T15:47:02.566Z
If you like your cash to stay in place then the money clip is the way to go, and everything still remains compact. Perfect for just enough extra cash, for those "just in case" moments!	2022-01-29T16:14:17.870Z
Great purchase, clip doesn't snag on pocket interior (which I was concerned about) and holds bills and receipts securely.	2022-01-04T23:58:03.415Z
I can't say enough about my new Ridge. For someone who has been a minimalist for years but struggled with the "money clip" aspect, this is perfect. The money clip is strong and tight in holding my cash and the cards slot is the best.	2021-07-04T21:14:36.509Z
Ridge wallet is small, compact, light and holds a lot of cards. Excellent purchase. A lot smaller than my old money clip. I purchased the money clip with it and it holds my cash tightly. I would recommend this product. Great purchase for the money.	2021-04-29T22:05:29.541Z
Clip had been improved from the original design. I love a company that "puts" into making a product better rather than selling more parts.	2021-04-17T11:27:04.930Z
This is great. Makes getting to your money easy. Highly recommend this unit.	2021-02-25T20:43:31.662Z
Its a good strong clip	2021-01-20T15:18:54.345Z
Perfect money clip and super easy to install.	2021-01-18T19:19:12.319Z
This clip is Heavy duty and will last a lifetime.	2021-01-14T00:48:46.494Z
Easy to install and grips tight; cash secure.	2021-01-11T16:47:14.846Z
The money clip gave the wallet a whole new look. Easy to use and I love it!!	2020-12-14T19:09:22.094Z

Really durable cash clip. Easy to install and hard to bend outta shape. I tried and I'm glad it held up. It's a great add-on.	2020-12-04T14:10:02.946Z
Great product! Holds money securely	2020-10-24T21:54:57.946Z
I purchased the money clip as an add-on to the wallet and find it an excellent addition. It's strong and holds quite a number of bills well.	2020-10-18T23:07:38.790Z
This wallet is very well made. The materials seem to be high quality and I foresee it lasting me a long time. The aluminum, the screws, and even the plastic parts are excellently crafted. I also love the size of it. The entire wallet is the size of a credit card and I am so stoked that I left my old bifold wallet behind. The money clip is also very nice. I was worried that it would stick out too far for my liking but I was wrong. It's very slim, even when I'm wearing dress pants. It holds cash tightly and I don't worry about it accidentally slipping out and getting lost. The only thing that I wish I had is more of these. I love the color varieties. I may have to get a few more in the future.	2020-09-24T03:48:18.247Z
This is light yet it doesn't fall out of my cargo shorts pocket like a leather wallet will. Easy to use, money clip is tight and keeps cash safe. I love the look and the function of this perfect EDC wallet	2020-09-11T17:05:53.028Z
After my old money clip busted, I needed a new solution. The Ridge wallet is great, holds several cards securely and the attached money clip seems very sturdy and durable. I thought it might be hard to get cards out, but it's super simple and secure. Very pleased with the purchase.	2020-09-11T15:10:22.510Z
Keeps your cash exactly where you left it. Love it.	2020-08-31T18:20:08.396Z
received the wallet as a gift wanted and got the money clip it works great and holds my cards and my money	2020-08-26T20:41:09.776Z
the money clip is a great feature for the Ridge Wallet	2020-08-25T18:15:04.356Z
Just as advertised. Holds my money without worrying you'll lose it.	2020-08-23T22:47:07.187Z
Great product. I got the titanium gunmetal with the money clip. It's exactly what I wanted. The money clip is very secure and I'm a cash guy so I love that aspect of the wallet. Only downside is it does take a little more time to grab a card compared to a traditional wallet but overall I'm very satisfied with my purchase.	2020-08-20T17:54:13.083Z

I love the carbon fiber weave. The money clip is sleek, but sturdy and also super light. The clip comes with a mini driver to tighten the screws should they loosen. That's a nice and unexpected accessory but this clip is so well made, I can't foresee ever needing to use the tool. The clip expands to hold up to 12 ID, credit, and debit cards. I only carry 2 IDs plus a debit and credit card and this clip keeps everything tidy and secure. The clip is rigid and keeps your cash in place. I wouldn't recommend this clip if you tend to carry larger amounts of cash, but it works great if you are the type to only carry a few bills at a time. Lastly, the clip looks amazing. What you see on the site is exactly what you get and well worth the price. Highly recommend this carbon fiber money clip!	2020-08-18T09:24:04.867Z
Overall I'm very pleased with the Ridge Wallet. The money clip is wonderful. It stays tight, money never slips out. I usually keep 5 to 6 bills tucked in. Getting cards out is simple and not hard to do. I love the fact that my cards stay in shape and no longer bend, like an old school wallet. It feels great in my front pocket. The only issue I have.... the elastic strap around the wallet is getting loose. So loose that it feels like my cards may fall out. Time will tell. Overall I'm satisfied with my purchase	2020-08-16T14:02:04.722Z
The clip is great. It returns to its regular shape and is not loose or lets cash or cards fall out.	2020-06-28T19:34:07.554Z
It takes a little getting used to sorting through cards but you get used to it in time, the money clip holds your cash firmly with no worries with losing cash by it slipping out. The ridge wallet makes a great grab just the essentials and go wallet but still prefer my trusty leather trifold for when going out for more formal occasions.	2020-06-21T23:36:06.966Z
There's nothing to dislike about the Ridge Wallet!! I love my carbon fiber!! It looks awesome and is slender and sleek! The design is beautiful and sturdy! And my cards feel secure as does my cash in the money clip! It's definitely worth the price!	2020-06-16T18:19:24.590Z
I installed the money clip to my ridge wallet in addition to the money strap. It is working great. I can put quick money on the clip(1-5-10) and larger bills under the strap. This makes it much easier when you are buying a coffee and only need Small bills quickly	2020-06-14T09:23:04.468Z
Great wallet. Sturdy and good looking, holds all the cards I need, money clip is strong and hold any cash tightly.	2020-06-10T14:56:11.626Z
I kept seeing the guys from Official Duck Studios on YouTube talk about the Ridge wallet and it seemed ideal for me since I only carry cards and rarely ever cash. I got the gun metal aluminum wallet and it's the best wallet I've ever had. Takes up minimal space in both my pockets and bike bag, And the money clip is extremely secure. Awesome product!!	2020-06-09T19:49:10.733Z
The individual money clip arrived quickly, was easy to affix to the Ridge Wallet, and is very easy to use. It holds the money in place.	2020-05-24T13:26:05.143Z

This is a great wallet and card holder I love the easy access to your cards. I how it compacts 12 cards neatly and tight. Very Strong and durable Material. The money clip holds cash very securely. I would recommend this product to everyone	2020-05-07T20:50:05.875Z
The new design is more sturdy. Now i have another black and a white clip to update ðŸ™‰ðŸ™‰	2020-04-25T01:09:06.074Z
Using the clip in addition to the elastic band really makes it more versatile.	2020-04-19T20:06:05.901Z
I have had many minimalist wallets and this wallet is by far the best, super easy to retrieve cards and sturdy money clip!	2020-04-05T19:54:04.216Z
I love this wallet! It's great that I can just drop it in my front pocket and go about my day. I am a server so I do hold onto a lot of cash. I tend to put all my tips in the bank and about 5 \$20 bills in the clip. I worry about putting too many bills in the clip and stressing it. Dont let that scare you away, the clip is sturdy and holds that money tighter than your coupon clipping, penny pinching mother would. The other nice thing about this wallet is; I dont spend as much money. I always kept my tips and as a result I would spend those tips. Now I put them in the bank and rarely touch the cash in my money clip. I dont know, I feel like I'm saving more money!	2020-03-22T22:06:04.717Z
Anyways, I looked at my old, worn down leather wallet and felt that I needed a change. I had been looking at these wallets for months now and finally decided to grab one - what a great choice that was! Now when I pull out the Ridge to pay for the tab I feel like a refined gentleman!	
I found the clip in good working order, and was very easy to install. Have enjoyed using my ridge wallet and now with the money clip even more. I tell everybody I know about my wallet.	2020-02-19T14:07:04.513Z
Perfect wallet!! It fits all of the cards that you would need when going out or to work and the money clip holds a good bit of cash tight and secure to the outside. I wish I would of bought one when they first came out. I Love it!	2020-01-30T02:42:06.574Z
I've had an aluminum Ridge for about a year and a friend kept asking about how I liked it. Told him it was the perfect solution to a bulky back pocket wallet, so I gave it to him and bought the carbon fiber model with a money clip. The carbon fiber is a bit lighter in weight. Perfect for the 6 cards I carry and don't even know it's in my pocket. Clip holds cash very securely. Will never switch to traditional wallet!	2020-01-07T23:48:04.624Z
I added the money clip to wallet with strap. It's an easy way to keep 2 different currencies separated and still allow easy access to my cards	2019-12-27T23:33:04.703Z
Love my new wallet. Amazed by how many cards it can hold. The money clip is great not too tight but very secure. My back and leg feel so much better not sitting on a bulky wallet. If you are thinking about it go ahead and make the purchase glad I did.	2019-11-08T15:01:05.397Z
This money clip feature is a great addition to an already great item.	2019-11-07T23:11:05.389Z
I added a money clip to the standard Ridge with elastic band. This gives me the perfect combination of versatility and compactness. I love it.	2019-11-06T17:06:04.241Z

The money clip I like all you need to do is fold the money in half 2 times and it stays there pretty good. You can use the money pretty quick and it goes back pretty fast also	2019-10-17T22:00:06.048Z
It took a few days to get used to having such a streamlined wallet, but I love it now. The money clip works perfectly, holds cash securely but very easy to remove. Great quality wallet at a good price. By the look and feel of it, I'm assuming it will last longer than my marriage. Cheers Chaad	2019-10-09T20:07:04.900Z
Holds onto your cash firmly. Can also double as a pocket clip to keep your wallet more secure.	2019-09-27T02:48:04.243Z
This thing is a lot stronger than I thought it would be the whole thing holds more than I thought it would and the money clip is way strong. I love it.	2019-09-16T04:32:04.249Z
Well made and holds tight even after I had twenty one dollar bills crammed under it.	2019-09-05T18:08:04.574Z
I added the money clip to my wallet that already had the cash strap. For me it was a game changer. Money on one side and biz cards and receipts on the other.	2019-09-04T18:22:05.367Z
It takes a little while to go from a conventional bifold or trifold wallet, but after a few days its like second nature. Money clip is tight and hasn't gotten loose in the month or so that I have had it. The elastic bands are till perfect. 10/10 would recommend!@	2019-08-25T23:28:07.256Z
I bought my 2 ridge wallets back in 2016, so I had the original money clips. They were still working perfectly, but I upgraded to the new clip since it has been enhanced/strengthened, is now in matte finish, and has the Ridge logo embossed into the design. I love my 2 wallets even more now, if that is even possible! Way to go Ridge Wallet!	2019-08-12T18:46:06.105Z
The cash clip is more flexible than I thought. I had the cash strap, which was good also, but I wanted to try the cash clip just to see if it was better to put money under it, or was the cash strap easier. After getting use to it, the cash strap and clip are just about the same. I also thought the clip might cause problems when it was in my pocket because the end of it curves up, but I have had no problems getting it out of my pocket. I like the clip very much.	2019-07-23T18:22:05.313Z
The money clip for the ridge wallet does the job! Thanks for producing quality products.	2019-07-07T19:27:04.374Z
Great quality and finish as well as appearance and holds and protects lots of cards. I also opted for the money clip which holds my cash very secure to the wallet. I have received several compliments already at checkouts. Thanks for an awesome product!!	2019-07-07T18:23:05.196Z
I have personally heard many awesome things about the Ridge from numerous sources. Now that I have it, I truly understand! It fits everything I need comfortably and securely, and the money clip is the most secure clip I have ever used. Would 100% recommend to any fans of the minimalist wallet lifestyle.	2019-06-24T23:00:04.258Z

High quality finish and fit Securing holds money Slim profile in pocket	2019-06-21T12:03:04.496Z
Purchased OD green wallet for myself, desert tan wallet as a gift for my son! Wallet holds all my cards securely, cash clip works great too with just the right amount of tension. I really like how the wallet is serviceable. The ability to replace the elastic and add or remove money clip makes for a versatile wallet that will last a long time! And did I mention it's classy looks? I'm very happy with the wallet and would definitely recommend buying one (or two or three!). My only suggestion would be options to customize the money clip with Military branch emblems or maybe American flag with thin blue line or thin red line? Thanks again for a great wallet!	2019-05-20T11:42:39.348Z
The Ridge is great, slim, stores cards easily, money clip keeps my cash in tight! Was using a leather (smallet) it was bulky, and didnt hold my cash well. Constructed well should last a long time.	2019-05-16T00:10:04.601Z
This money clip is a solid piece of metal. Itâ€™s rigid, and is an excellent addition to your Ridge Wallet. Definitely worth it.	2019-05-11T05:57:04.448Z
I liked how the new money clip design is simple and tough enough to hold my money in place compared to the spring assisted money clip	2019-04-05T07:05:06.265Z
I have used a magnetic money clip for years and was never satisfied. It didn't hold my cash tight enough and didn't have enough room in the pocket for all 9 or 10 cards I carry. For years I looked for a better product, when I saw the ad for the Ridge it looked perfect so I ordered it. I love it. Room for everything, the clip holds my cash securely , and the pocket secures my cards and ids. Everything is easy to access and return. Great product.	2019-04-05T02:28:06.624Z
Ilike the fact the money clip holds my money securely and is not noticeable in my pocket.	2019-03-25T22:09:05.674Z
The sturdy money clip works very well as an accessory to the Ridge wallet.	2019-02-12T23:00:05.377Z
I have the titanium ridge wallet with the money clip and band on the other side. I am very impressed with money clip's strength and tightness. I do not see it loosening in the near future.	
Thanks guys for a great wallet.	2019-02-08T05:07:05.711Z
Holds cash extremely secure and in very compact space.	2019-01-24T21:52:07.313Z
I was looking for a compact wallet and something with RFID protection, the ridge wallet is a perfect size for the amount of credit cards, license and other cards I carry. I have the money clip which is solid and holds bills very securely. I bought 3 more of these as presents, they've all been a hit thus far. Lifetime warranty, how can you go wrong? If you like to carry a compact wallet with RFID protection, durable and cool, this works great. You'll either love it or hate it.	2019-01-18T17:05:06.110Z

This wallet is perfect for me. It holds many cards securely and the money clip holds my cash tightly also.	2019-01-18T00:53:05.056Z
Gone are the days of carrying ALL of our credit cards, membership cards, loyalty cards, etc. in one big, fat, backache-causing wallet! The modern man who enjoys the convenience and security of smartphone apps, Apple Pay or other mobile payment options, etc. will ABSOLUTELY enjoy the simple and effective design and functionality of the Ridge Wallet. The small credit card size and flexibility for securing a few, to several, of your “must carry” items, IDs, main credit card(s), cash, receipts and more make the Ridge Wallet perfect for those looking to minimize and modernize their everyday carry wallet. The Carbon Fiber version functions perfectly, is lightweight, and simply beautiful to look at and hold in your hand. It fits neatly in virtually any pocket you choose, front or back, jacket or jeans, and you hardly know it’s there once you adjust your routine for wallet placement. I purchased the version with the strap, and added the Money Clip so I had both. I use the strap side for securing cash, and the money clip for holding receipts during the day. I feel confident and secure, having both sides (money clip on one side and strap on the other), as well as the interior for securing credit cards, IDs, etc. with The Ridge Wallet in my pocket!	2019-01-13T21:03:05.631Z
I added the money clip to my Ridge wallet so that I had BOTH the strap, AND the money clip. I travel often for work, and needed a quick and simple way to “capture” and secure my business receipts during the day, and I have found that the money clip performs perfectly for securing my receipts, while keeping a little cash separate on the strap side. It’s very tough and strong (securing anything to the wallet), and can take some getting used to lift / open it up to slide something in... especially flimsy receipt paper, but it works extremely well. I never feel a risk of anything falling out. The Money Clip is strong, with significant tension to secure anything you have it hold on to for you!	2019-01-13T20:43:05.364Z

I added the money clip to my Ridge wallet so that I had BOTH the strap, AND the money clip. I travel often for work, and needed a quick and simple way to "capture" and secure my business receipts during the day, and I have found that the money clip performs perfectly for securing my receipts, while keeping a little cash separate on the strap side.

Easy install and it works great. Highly recommend the money clip.	2019-01-05T00:55:06.856Z
So glad to be rid of my old fashioned "Costanza" wallet. The Ridge wallet is perfect for me. Holds all the cards I need and money clip is very secure.	2019-01-01T01:35:07.885Z
A great addition to my Ridge Wallet. I have the money clip on one side, and the elastic band on the other. The clip was easy to attach, took less than 5 minutes and looks great. The addition of the money clip will make this wallet practical and usable for many years to come.	2018-12-29T23:22:05.340Z
It's really nice that I have quick access to my cards and the money clip holds cash tight. After a little bit of having it the titanium casing has no scratches or signs of wear. The only thing I foresee ever wearing out is the elastic around the outsides. Otherwise, I can hardly tell I'm carrying it most of the time and have to check. Outstanding product.	2018-12-28T21:47:06.817Z
Took a couple times to get used to using but not difficult. Quality is excellent and makes card carrying very convenient. I got the money clip and because of quality it secures a few bills to a wad of cash.	2018-12-12T19:45:05.449Z
Love the money clip with my Ridge. It holds money or whatever you need to clip to it. I have the strap and the clip. It's awesome. Highly recommend it for additional storage. Loving my Ridge Wallet. I want another one.	2018-12-04T21:36:05.642Z
Stylish and effective way of storing your cards. Protected from damage and safe from attack, I am really happy with this wallet. Money clip securely holds notes and receipts etc.. Perfect.	2018-11-30T20:12:05.635Z
Money clip was a great update on the Ridge wallet with the cash strap.	2018-11-23T19:50:06.729Z
product was shipped quickly, no issues what so ever! the carbon looks and feels great. the money clip is tight and i've trimmed the amount of cards i carry from 12 to 3-4! 10/10 would recommend.	2018-11-20T21:29:05.775Z

Ever since hearing Theo Von bang on about this product I finally caved in and bought one. Had to wait for the burnt titanium to be restocked but so glad I did. People can't believe how cool I am picking this out of my front pocket. Such a smooth Operator now, every transaction I make the teller and anyone else near by's eyes are instantly drawn to it. So small, you hardly notice it. I was concerned about the money clip before I purchased as I thought the money would easily slip out but nope, holds on tight. In addition, I now am bulge free from behind. I don't have to take my wallet out in order to drive (or sit down anywhere in fact) and I can wear skinny jeans like the kids do and show off my sexi tight ass! The only negative I've found so far isn't even a negative in my eyes, someone asked "where do you keep your change tho!?" To which I replied "My change goes to homeless people, why doesn't yours?", I didn't get a response, hopefully they were reconsidering the decisions they had made in their life. Pure winner from Ridge. Top quality product. 10/10	2018-10-24T21:29:05.259Z
The clip is nice and easy to install to the wallet. The clip holds money surprisingly well!	2018-10-22T22:57:06.479Z
I bought this because being in my mid 50's. My old large leather wallet was causing lower back pain. This smaller wallet is awesome, fitting nicely in my front pocket. The only knock I have on this wallet, is the fanning of the cards. I carry quite a few for business and personal use. The first time I tried to fan the out, a few flew out and fell to the floor. But with practice you get better at this task. I did buy mine with the money clip, and replaced the strap with the additional bill holder strap. I like this configuration better. Having both the clip and strap let's me carry a few personal things like my CCW license which won't fit into the wallet and still have a secure location for cash. I reccomend this wallet to everyone I know.	2018-09-27T12:30:05.731Z
I have had many other minimalist wallets before but this one is by far the best. The quality and adjustability are amazing. I got the money clip with mine and it keeps cash tight. I thinking about purchasing the cash strap just to try it out.	2018-09-11T01:58:05.474Z

At first i thought hard about spending this amount of money on such a small product, but after using the wallet for a while now the product is very well made and so easy to have in your pocket as it is not bulky. It stores enough cards for all occasions and i choose the money clip which holds paper money very securely Overall it looks great and is very well made.	2018-09-10T18:49:05.491Z
I purchased the money clip because the spring loaded one on mine broke after a couple years. I read that it would not work but I made it work and couldn't be happier. It's very stiff and extremely sturdy. Definitely improved the wallet for me.	2018-08-30T13:36:05.504Z
This is a great money clip accessory. Itâ€™s super strong, super flexible and easy to install. Iâ€™ve been surprised how much I can cram under it and it doesnâ€™t break, and still bends back flush with the wallet when empty. Well executed.	2018-08-12T15:28:04.855Z
I'm so glad I got the money clip. It keeps everything together in a much smaller package than a traditional wallet.	2018-08-05T03:25:05.327Z
I bought this for my husband for Father's Day. I was so excited I gave it to him early. He LOVED it! The wallet is sturdy and seems well made. The cards are easily accessible yet very secure. The money clip holds several bills as well as a single bill securely. We loved it so much we ordered one for my Dad and another one for a cousin. Excellent product.	2018-06-14T04:00:00.000Z
Loved my first one and tried a knock off since i was trying to save some money. After a few weeks couldn't find my old Ridge so i had to buy a new one. Money clip option is great keeps everything right and secure. Cards are easy to access. Always telling my buddies the last wallet they will ever need. Thanks	2018-05-27T04:00:00.000Z
If you're looking for a minimalist wallet that you can easily carry in your front pocket then look no further! This thing is great! Holds your cards securely and your cash is easily accessible with the money clip. I would definitely recommend this wallet!	2018-05-25T04:00:00.000Z
I carried a big bulky wallet for years and had back problems. No more. Before making this investment in the best I wanted to see if this new minimalist style would work for me so I tested one of the cheap aluminum knockoffs you can get on the Internet. I liked the style, but not that other product, it just felt "cheap" and had tons of scratches in a few weeks and don't even ask about the money clip, might as well have been made of tin foil. Since buying the Ridge carbon fiber, I'm so far extremely pleased - it has a great feel and the looks are very sharp. It is tough, so far not a single scratch and the money clip is definitely spring steel because no matter how much I cram in there, when I take it out it always springs back to shape and later holds a single bill or business card as tight as the day I bought it. \$100 for a wallet is an investment but so far I'm thinking it very well could last a lifetime. Only wish I'd had this one years ago.	2018-05-17T04:00:00.000Z

Recently broke in my new wallet on a trip and appreciated the lack of bulk. Carried a bit more cash than usual, but the money clip held the bills securely.	
Peace of mind knowing my cards were RFID protected. TSA agent thought the design was cool.	2018-03-30T04:00:00.000Z
Awesome product and great design! Ordered with the cash strap, easy to use and perfectly secures cash in place! Also purchased money clip and like to alternate	2018-02-28T04:00:00.000Z
Excellent piece of kit to carry just what you need, very securely in a strong case. My Cards are loving it too and so easy to slide them out. Top one is always the card I use most, easy to access and so secure. Money clip version is excellent and really like that for example £30 is permanently and very neatly attached, no way to fall out from folded position, ready for when I need it. I just need to "Rideway my life" now. Cut the unnecessary slack things, make more aspects lean, efficient and organised. Great pocket sized example of what is possible.	2018-02-09T04:00:00.000Z
Glad I decided to upgrade my money clip great buy high quality material.	2018-01-14T04:00:00.000Z
More money than I've spent on my last 3 wallets combined, but 10x cooler. Takes a while to get used to fanning the cards out, but I'm getting the hang of it.	
If you are on the fence, just get it. You'll be glad you did.	
Get rid of the stupid cards that you really don't need or accumulate enough points to do anything with. I ended up putting them in a separate case to keep in my truck on the off chance I might use one.	
You'll love this thing. I went with the money clip, which is pretty tight. Past money clips I've worried about cash falling out, but it seems pretty secure in there (Canadian bills are pretty much slippery plastic).	2017-12-10T04:00:00.000Z
Terrific. Well made and does what you'd want a money clip to do. Clip money. Very well.	2017-12-08T04:00:00.000Z
The new money clip design is way better than the old spring design.	2017-12-08T04:00:00.000Z
Aluminum wallet is a great choice, well worth the money.is really small and fits easily in my front pocket. I don't usual carry cash but when I do the money clip holds it securely.	2017-11-10T04:00:00.000Z
This wallet has an amazing design. I've had it for a month and I truly love it. I'm getting better at pulling out the cards quicker. Sometimes is that not that easy but I rather the cards are held secure. I have been moving to smaller and smaller wallets over time, but this is about as compact as you can go. The money clip is solid and hold the folded bills very securely. Part of my EDC with my Leatherman skeletool and small flash light. Now I'm unstoppable!!!	2017-10-22T04:00:00.000Z

I have purchased many wallets in my lifetime in pursuit of the best wallet I can find. My search is over! I can fit all the cards I need into this wallet. My cards are snugly fit and I have no fear of them falling out. The money clip is awesome as well. The money is extremely secure.	2017-10-06T04:00:00.000Z
The pros: The wallet as a whole is lightweight, yet you know you have it in your pocket, so is about right and the footprint is nice and small. I would not normally recommend putting a wallet in an inside jacket pocket, but you can with this one. The money clip is great and strong even a few months down the line. The cards are held firmly and the elastic is strong even three months later. Cards can be easily removed and swapped around. The help card that comes with the wallet is great and the tool is a great touch. The cons: Be careful what you put in the pocket with your wallet, such as keys etc as they can scratch the surface a little. Was hoping titanium would be strong enough to take the daily bashing of keys.	2017-10-05T04:00:00.000Z
This is my first ever money clip/card holder. I needed a replacement for my bulky wallet that no matter how much cards & other materials I remove, it always ends up being bulky again. It also gets uncomfortable when I'm driving & I have to constantly adjust it. I love how small The Ridge wallet is & how it can hold up to 12 cards. The money clip keeps my cash secure & I love how my cash is kept nicely folded instead of being loose inside my pocket. The card removal was a little difficult in the beginning but after a few days of normal use I got used to it & works like a charm. I ordered the aluminum gold version & the quality was impressive. I get lots of compliments whenever I take it out of my pocket.	2017-09-30T04:00:00.000Z
The clip is very good and very tight, no worries that anything will slide from under that baby!	2017-09-21T04:00:00.000Z
Fits all 7 of my cards, looks great and the money clip is secure. I've had a few compliments on it already. I prefer to keep my wallet in my front pocket and I don't even notice it.	2017-09-15T04:00:00.000Z
I really love this wallet. It is the first time I ever used something like this. I enjoy not sitting on my wallet etc. the more I use it the more I enjoy it. Also the money clip is very secure and has stayed that way with the right tension. The credit cards go in and out with ease as well. My daughter got it for me for a birthday gift and it is great!	2017-08-11T04:00:00.000Z
Perfect size and weight. The Money clip is good and tight. It's really the best wallet I have ever owned.	2017-07-22T04:00:00.000Z

This is a perfect wallet for me. I don't carry around much except cards, and I prefer having something to help with safety/security. I bought the money clip and it's great - it holds receipts tightly. The wallet itself holds cards tightly and securely. I will probably buy a different colour because it turns out my best friend and I both bought the same one without mentioning it to each other!!! If you carry cards and you're a minimalist - this is the wallet for you.	2017-06-25T04:00:00.000Z
For the simplicity of the wallet it feels quite expensive, but it is smaller and lighter than my old leather wallet, and that is a big plus. Never used a money clip before, but it feels nice and tight so you aren't worried about losing the cash. A cool accessorie would be to buy the different materials individually so you could swap them out. I like the black aluminium but if i could buy another i could swap it out (I assume). Happy with my purchase.	2017-06-18T04:00:00.000Z
Was very interested but wary about this purchase. But once the wallet arrived I was sold. Ridge is compact and small enough to fit in your front pocket. I have all my bank cards and license in the wallet. The money clip is the way I went and it keeps my cash so secure (shop keepers don't like the folds but you get that). I highly highly recommend this wallet. Great cost and postage.	2017-05-07T04:00:00.000Z
I've had my ridge wallet for a couple of months now and I can't imagine going back to any other wallet. Love the compact design and the money clip holds my bank notes very securely. Great product!	2017-04-06T04:00:00.000Z
I couldn't stand having my traditional style wallet in my pockets anymore so I started looking around on the internet and there were options out there but none that seemed to fit my needs but one the ridge. So I ordered my ridge wallet and have been using it now for weeks and I have to say I love it, I can now carry my wallet in whatever pocket I prefer as you barely notice it's there. Money clip holds the cash tight , inside holds plenty of cards with no problems or movement . Great wallet thanks Ridge. I believe I'll be getting my father one soon.	2017-03-27T04:00:00.000Z
Looks and functions great, money clip holds bills securely , with the band I would probably give it 4 stars . Is well built.	2017-03-06T04:00:00.000Z
Its been a great clip so far. Bought one for my dad for Christmas and he loves it too. Takes a few weeks to get used to it, and the metal money clip is super tight.	2017-01-13T04:00:00.000Z
Bought both the aluminum and gun metal wallet with the money clip. One was a present for my father and of course had to have one for myself. After a very short (cpl days) learning curve I am very happy with my purchase and talking to dad he is also. They are very well made and also quite classy looking. Was unsure how heavy it was going to be but they are extremely light. Seem to hold cards very securely and the money clip is very tight. Have had about 3 weeks now and will see how well the elastic band holds up. The bands are a cheap replacement so not to concerned with that. I hold about six cards in mine and it's perfect. Bottom line is I'd do it again with no hesitation!	2017-01-07T04:00:00.000Z
