PART LIST

The TempSense® Indicator on this Allentown Single-Handle Pull-Down Sprayer Kitchen Faucet clearly shows when water is cold, warm or hot with a color-changing display, helping your family avoid hot and cold temperature surprises. Instead of leaving the water running and returning when you think it's warm, the (hydro-powered)* display allows you to know exactly when the water is right for the task at hand, helping you save a little water and a lot of time at the sink. It changes from blue to magenta to red as the water temperature rises, showing blue below 80°F (26.7°C), lightening to magenta from 80°F (26.7°C) to 110°F (43.3°C) and turning red when the temperature rises above 110°F (43.3°C). (Just like our brand, the indicator light is powered by water, so there's no need for batteries or outlets.) Delta® MagnaTite® Docking uses a powerful integrated magnet to pull your faucet spray wand precisely into place and hold it there so it stays docked when not in use. Delta® SpotShield™ Technology helps to keep your faucet cleaner, longer by resisting water spots and fingerprints. Keep your space spotless with SpotShield Technology, available across a variety of finishes for the kitchen and bath. Delta® faucets with DIAMOND™ Seal Technology perform like new for life with a patented design which reduces leak points, is less hassle to install and lasts twice as long as the industry standard*. Kitchen faucets with Touch-Clean® Spray Holes allow you to easily wipe away calcium and lime build-up with the touch of a finger. You can install with confidence, knowing that Delta faucets are backed by our Lifetime Limited Warranty. *Industry standard is based on ASME A112.18.1 of 500,000 cycles.

- TempSense® Indicator changes color as water temperature changes
- Color-changing display clearly shows when water is cold, warm or hot
- Water-powered, so there's no need for batteries or outlets

- Helps to save water by indicating temperature instead of allowing the water to run and stopping to check temperature as it heats
- Helps to avoid temperature surprises by providing a clear visual indication of temperature range
- MagnaTite® Docking uses a powerful integrated magnet to snap your faucet spray wand precisely into place and hold it there so it stays docked when not in use and doesn't droop over time
- SpotShield™ Technology helps your faucet or shower stay cleaner, longer by resisting water spots and fingerprints
- SpotShield™ Technology with antimicrobial protection of the finish resists odor-causing microbial growth on the finish
- Soft, rubber Touch-Clean® spray holes allow you to easily wipe away calcium and lime build-up with the touch of a finger
- DIAMOND™ Seal Technology is less hassle to install and helps your faucet perform like new for life, reducing leak points and lasting twice as long as the industry standard
- Everything you need is together in one convenient box, including integrated InnoFlex® PEX supply lines
- 1, 2, 3, or 4-hole installation
- Optional escutcheon included for use with additional mounting configurations and a cohesive look
- ADA Compliant
- The high-arc, gooseneck design swivels 360 degrees with a 20-in. retractable hose for added convenience during everyday kitchen tasks
- Includes matching finish soap dispenser
