Doctors are Weighing in on ThermiVa

I have recently heard back from the other docs with ThermiVa who have now completed many many treatments of their patients. It has been an incredible and eye opening beginning. And I had absolutely no doubt ThermiVa would rock! Patients are tighter both vaginally and externally. More friction, more intimate sensation. Orgasmic response has been truly remarkable in many. Really the only treatment out there for orgasmic dysfunction that is drug free and psychiatrist free! Patients are more comfortable and creating such healthy vaginal moisture after just 1-2 treatments. The estrogen creams and purchased lubricants are getting

retired! ThermiVa now is my primary treatment for stress incontinence, overactive bladder, atrophic vulvovaginitis, and even recurrent vaginitis and UTIs. I have found that after just one to two vaginal treatment with ThermiVa the pH inside the vagina goes normal and the yeast and GBS and BV infections pretty much go away. UTIs go away also as the tissue tone and urethral muscle function improve to keep bacteria out of the bladder. We are really just learning all the things that RF can do for the gynecology, urology, aesthetic, and sexual medicine practice and it is just amazing the stuff you and the other docs are discovering. I can say with all honesty that ThermiVa RF is game changing and the New Paradigm in Gynecology. (To see some comments from other physicians, go to <http://thermiva.org/physicians-experience.html>)
