

New PFC FrontEnd

Get your prototypes FAST!

What's New

Vicor Power Products & Components

[All Products](#) | [Product Selector](#) | [Online Catalog](#)

DC-DC Converters

Full, half, and quarter-brick high-density power components.

V-I Chip Products

The industry's new standard for power flexibility, density, efficiency, and responsiveness.
[Military V-I Chip Modules](#)
[Picor Filters for V-I Chips](#)

Power Supplies

Flexible, user-defined modular power solutions for both [AC-DC](#) and [DC-DC](#) systems.

Filter & Front-End Modules

Modular power solutions for both AC-DC and DC-DC systems.
[Picor Input & Output Filters](#)

Military COTS Products

Choose from the largest selection of off-the-shelf products suitable for harsh military environments.
[Military V-I Chip Modules](#)

Custom Solutions

Design and manufacture turnkey custom power systems.

Power Providers

Picor Products
Active filters for input / output noise

Westcor Products
Designs and builds configurable solutions

Vicor Integration Architects
Customized component-based power solutions

Value-Added Resellers
Customized component-based power solutions
