

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

BEFORE THE PATENT TRIAL AND APPEAL BOARD

SALVACION USA, INC.,
Petitioner,

v.

TRUTEK CORP.,
Patent Owner

U.S. Patent No. 8,163,802
Issued: April 24, 2012

Title: ELECTROSTATICALLY CHARGED MULTI-ACTING NASAL
APPLICATION, PRODUCT, AND METHOD

Inter Partes Review No. IPR2024-00711

**PETITIONER'S OBJECTIONS TO
PATENT OWNER'S DEMONSTRATIVES**

Pursuant to the Order Setting Oral Argument (Paper 21) in this proceeding, Petitioner, Salvacion USA, Inc., hereby makes the following objections to certain demonstrative slides filed by Patent Owner, Trutek Corp. (Ex. 2008).

Petitioner attempted to discuss its objections with Patent Owner before Patent Owner filed its slides. However, Patent Owner's counsel was unavailable and filed its slides before a discussion could be had. Petitioner is therefore making the objections for the record.

Petitioner objects to Patent Owners slides nos. 6, 9, and 14 (copies included herewith) on the following grounds:

Slide 6: Includes a visual that is not part of the record.

Slide 9: Includes visuals that are not part of the record as well as instructions for use of a product that is not part of the record and is irrelevant.

Slide 14: Includes a visual that is not part of the record as well as references to product sales, experiments and product attributes that are not part of the record and that are prejudicial.

For the foregoing reasons, the Board should disregard slides 6, 9 and 14 from Patent Owner's Exhibit 2008.

Respectfully submitted,

VORYS, SATER, SEYMOUR AND PEASE LLP

Dated: September 4, 2025

Positive Electrostatic Field

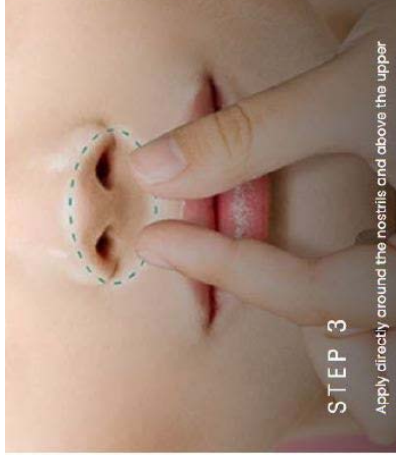

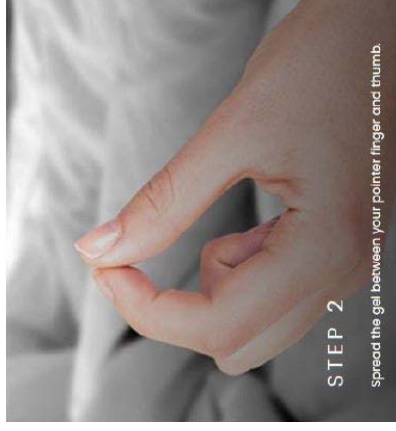

Attracts and Holds
Negatively Charged
Particles:

- Viruses & Bacteria
- Pollutants
- Dust
- Pollen

DEMONSTRATIVE EXHIBIT - NOT EVIDENCE - Slide 06

Applying NasalGuard Gel

Step 1: Squeeze a drop on the pointer finger.

Step 2: Spread the gel between the pointer finger and the thumb.

Step 3: Apply directly around the nostrils and above the upper lip.

DEMONSTRATIVE EXHIBIT - NOT EVIDENCE - Slide 09

**RESPIRATORY
AIRWAY**

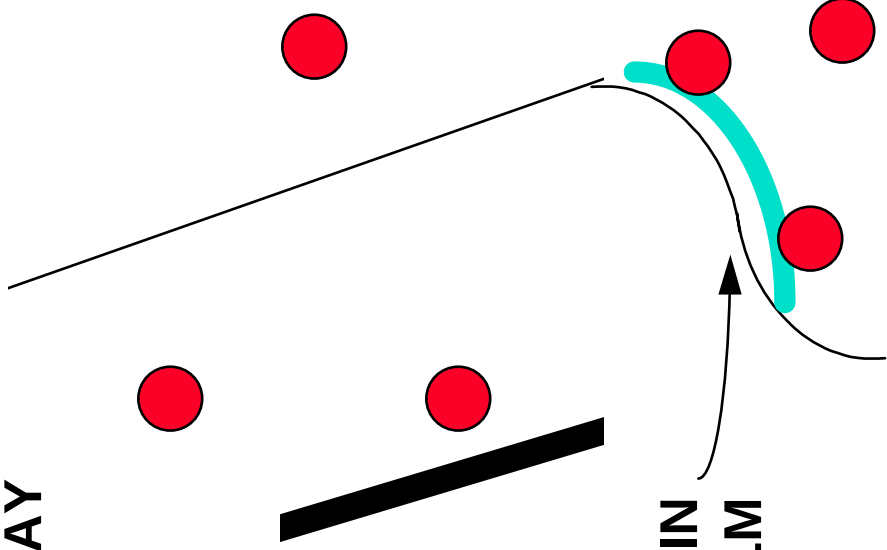

**NASAL
MUCOSA**

**THIN
FILM**

Trutek has been selling electrostatically charged gel products since 1995.

Experiments showed that particles would become dislodged after contact with the thin film, and float freely in the air.

None of Trutek's previous products exhibited the HOLD function.

DEMONSTRATIVE EXHIBIT - NOT EVIDENCE - Slide 14
